

Kabbalah

En de Psychotische Hel waar we in
leven

Welkom in Kabbalah-land

Deel 1.4a

Inleiding

- Nu we weer met beide benen stevig op een platte onbeweegbare grond staan kunnen we de zogenaamde crisissen gemakkelijk ontmantelen.
- De psychose zit vol met allerlei crisissen die als doel hebben:
 1. Mensen continu in angst te houden om te voorkomen dat ze rationeel denken;
 2. Het plan voor werelddominantie en de daarvoor noodzakelijke eliminatie van Amalek en alles wat aan hem herinnert door te voeren.
- De crisissen worden veroorzaakt door geesten, demonen en de engelen/demonen van ziekten, hongersnood en oorlog (vuur). We zullen daar in een ander deel verder op in gaan.
- Dit deel is opgesplitst in 2 omdat de presentatie anders te lang wordt.

Kabbalah Crisissen

Fictieve Kabbalistische crisissen: Angst, angst, angst, angst aanjagen met demonen en vliegende geesten. Hou het gepeupel in hun eigen psychotische gevangenis.

- Klimaat-crisis: CO2-crisis; Stikstof-crisis; Broeikasgassen-crisis; Opwarming aarde; Ijsbergen smelten, zee-spiegel stijgt; Droogte en hongersnood; overstromingen.
- >>> De 'oplossing': Groene energie: De meest destructieve energie ooit bedacht: Vervuiling van bodem en water rondom de mijnen, is volledig onbewoonbaar geworden, 150 bomen nodig om 1 windmolen te maken, in de wijde omtrek van een windmolen en zonnepanelen moeten alle bomen gekapt worden. Het mijnen en de auto fabricatie wordt door kinderen gedaan. Duizenden vogels en vleermuizen worden door windmolens vermoord, de walvissen raken de weg kwijt en spoelen aan wal aan. Windmolens en zonnepanelen worden met extreem giftigen grondstoffen gemaakt en kunnen niet gerecycled worden, worden gedumpt o.a. in 3e wereld landen. Mensen opsluiten in hun huis.
- Covid/virussen-crisis:
- >>> De 'oplossing': Mensen volspuiten met vergif tot ze er dood bij neervallen en mensen opsluiten in hun huis.

In deel 2:

- Genen-crisis.
- >>> De 'oplossing': Mensen volspuiten met vergif dat het DNA/ de Ziel vernietigd. Geen kinderen meer krijgen.
- Nucleaire/atoom oorlog.
- >>> De 'oplossing': Sorry er is geen oplossing, jullie zullen gewoon elke seconde van elke dag in angst moeten leven dat die slechte Russen, of Chinezen, of Iraniërs de bom laten vallen en dan moeten jullie je allemaal opsluiten in je huis tot het einde van je leven.
- De buitenaardse wezens / meteorieten / enz gevaren uit het heelal.
- >>> De 'oplossing': Mensen opsluiten in hun huis.

by Ariel Bension, 1932. P. 201:

“ On the fourth step I saw the angel of Diphtheria, who was created at the crescent moon. He is present at the death of little children, when he appears to them in the form of a woman who clasps their throat and gently strangles them. The souls of these children are brought to this Palace and the angel takes care of them and nourishes them with light, fills them with joy, purges them of all bitterness, and brings them at last into the presence of the King of Kings. And there, on Sabbath days and on the days of the New Moon, they receive the blessings of the Fathers. When God sees these little ones, His heart is stirred with pity towards all mankind. And I saw the children, who had been saved from leading a wicked life, basking in the joys of purity and love.

P. 208:

“ And my eyes gazed down, and they beheld the devastation that goes on in the Sixth Palace of the realms of Hell. This vast region is opened by four doors, which are called : the Door of the Shadows ; the Door of the Shadows of Death ; the Door of Evil ; the Door of Death. And I saw all the evils of the flesh that tempt man to sin, exposed in an attractive form. And I saw that when the man who has

spirit that guards it is called *Hate*. I saw wild-eyed famine trying to break its bonds in order to ravage the earth and mankind. And I saw innumerable demons carrying off the drops of bitterness that are injected into the earth every time a man sins. Each drop of bitterness is hailed by the Demon of Famine with a shout of joy, for it brings him a little nearer to breaking his bonds and rushing to earth to destroy mankind.

committed the sins of the flesh is about to die, the Guardian of the Sixth Palace of Hell appears to him as a demon of fire, holding three drops of bitterness. The first drop falls into the man's mouth, spreads through his whole body and begins troubling his soul. The second drop kills him, and the third drop begins the decomposition of the body. And I saw those who are filled with vanity and with love of self, being brought to this Palace. When the time comes for an evil man to die, Lilith appears to him and induces him to sin with her, and during his sin she kills him. And I was obliged to turn away my eyes from all the misery that I saw there.

De Klimaat Crisis

- Iedereen die ouder dan 50 jaar is weet dat er geen klimaatcrisis is. Het weer in Nederland verandert continu. Zoals men vroeger zei: “Niets zo veranderlijk als het weer.”
- Het ene jaar is de zomer lang en warm, het andere jaar koud en regenachtig, de ene winter vriest het, de andere winter is het relatief warm en regenachtig. Al deze varianten hebben we in de afgelopen honderden jaren meermaals meegemaakt.
- Het klimaat is een samenvatting van het weer over 100 tot 200 jaar, met andere woorden je kunt het niet over het weer van de afgelopen 5 of 10 jaar hebben en dat klimaat noemen. Tegenwoordig is klimaatverandering “elke verandering van het weer”, vroeger heette dat seizoenen.
- Of er daadwerkelijk een klimaatverandering is op dit moment weten we over 100 tot 200 jaar. Er is nu niets over te zeggen. In de afgelopen 25 jaar is de temperatuur niet gestegen, aldus de ‘experts’ zelf.
- Ook als er een klimaatverandering bezig zou zijn is dat geen enkel probleem. In de 10 -14e eeuw was het 5 graden warmer dan nu, was geen enkel probleem voor de aarde. In de 15 -19e eeuw hadden we een ijstijd, was geen enkel probleem voor de aarde. De aarde heeft al heel wat temperatuur-wisselingen meegemaakt en bestaat nog steeds.
- Er is geen klimaatcrisis, er is een psychotisch plan om de aarde te vernietigen en dat gebeurt nu, onder het mom van het redden van de planeet (YaH).
- Waarom beginnen ze de temperatuur schaal in de 19e eeuw als ‘bewijs’ dat het nu warmer is? Omdat we toen uit de ijstijd aan het komen waren. Alle temperatuurstijging tussen toen en nu waren in de eerste jaren: de klim uit de ijstijd. Sindsdien is de gemiddelde temperatuur nauwelijks veranderd met af en toe pieken en dalen. Alle temperatuurstijging was eind 19e - begin van de 20e eeuw.

By 2001, the Medieval Warm Period, Little Ice Age, and post-1940 cooling had been officially erased. Just as the climate scientists planned to do.

Jouw Schuld

- De klimaatverandering wordt door mensen veroorzaakt, dus het is allemaal jouw schuld. Jij moet boete doen, niet alleen boetes (belasting) betalen voor alles wat je koopt, nee, jezelf opsluiten in huis, huisgevangenschap en niet meer dan 15 minuten afstand buitenshuis om even te luchten;
- Zoals we gezien hebben heeft een klimaatverandering niets met mensen te maken maar is een natuurverschijnsel waarbij alles in cycli verloopt. Net als de seizoenen elk jaar weer terugkomen, zo ook de verandering van klimaat die seizoenen over langere tijd zijn;
- We zullen zien dat er wel een door mensen veroorzaakte beïnvloeding van het weer is, die heet geoengineering; en die wordt nu gebruikt om iedereen een schuldgevoel aan te praten;
- Met behulp van geoengineering kunnen ze droogtes, extreme regen/hagel/sneeuw, aardbevingen, tsunami's, hittegolven en vulkaanuitbarstingen veroorzaken;
- We zien nu dat ze het weer als in het sprookje van Noah aan het nabootsen zijn waarbij weer de niet-joden de schuld krijgen. Hetzelfde liedje, andere melodie. De niet-joden zijn corrupt en nu is YaH boos en zal de aarde vernietigen met behulp van weermanipulatie. Om YaH een handje te helpen hebben ze geoengineering uitgevonden.

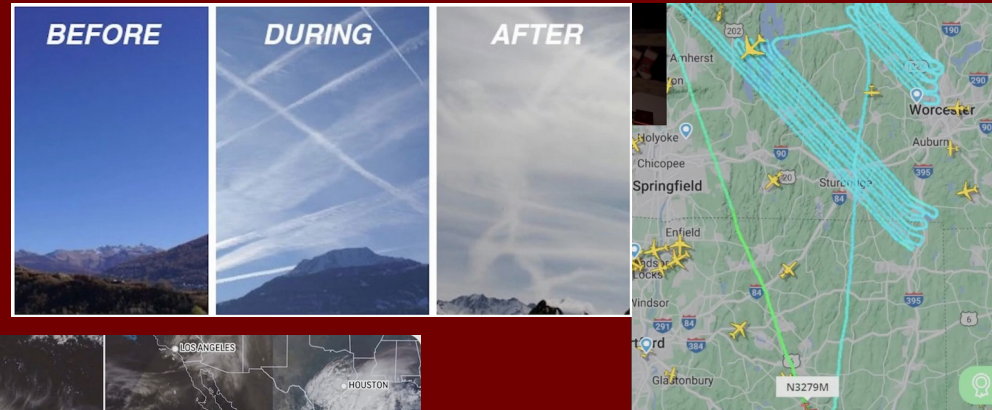

Het 'Broeikas-Effect'

- “De aarde wordt warmer door het ‘broeikas-effect’.” Laten we het daar eens over hebben.
- Volgens de Kabbalisten in planten en bomen: Water + Koolstofdioxide → Koolhydraten + Zuurstof
- Zuurstof!
- In een kas staan planten die volgens deze formule als enige gas zuurstof produceren.
- Er is dus maar 1 broeikasgas en dat is zuurstof. Zeker geen koolstofdioxide want dat is wat ze opnemen. CO2 is dus zeker GEEN broeikasgas.
- Inmiddels zou je moeten weten dat de correcte formule is: Zouten + Water → groenten/fruit/noten + overvloedig Water.
- In een plantenkas is het moeilijk ademen. Waarom? NIET omdat er teveel zuurstof zou zijn, maar omdat planten water uitzweten via hun bladeren. Daarmee stijgt het percentage water in de lucht. Omdat het warm is in de kas zet het water uit/wordt vloeibaarder. Nu hebben we lucht met een hoog % water en laag % ether. Dat is waarom ademen zo moeilijk gaat. Zo ook in de tropen, waar het broeierig is, en in een tropisch regenwoud. Broeierig betekent dat er veel water in de lucht zit dat door de warmte uitzet (vloeibaarder wordt). Je lichaam kan zijn overvloedig water (zweet) niet kwijt waardoor je oververhit raakt (zonnesteek).
- In een plantenkas wordt ‘CO2’, dat is luchtvervuiling, toegevoegd zodat het wordt opgenomen door het water, het water wordt zwaarder en zakt naar de grond, zodat de planten beter hun overvloedig water kunnen kwijtraken en ze dus beter groeien en voedsel produceren.
- Er zijn geen broeikasgassen, er is geen broeikas-effect door gassen omdat er geen gassen zijn. Broeikas-effect is een hoog % water tov het % ether.
- Nogmaals volgens hun eigen Kabbalistische formule is er maar 1 broeikasgas en dat is zuurstof.
- Einde discussie.

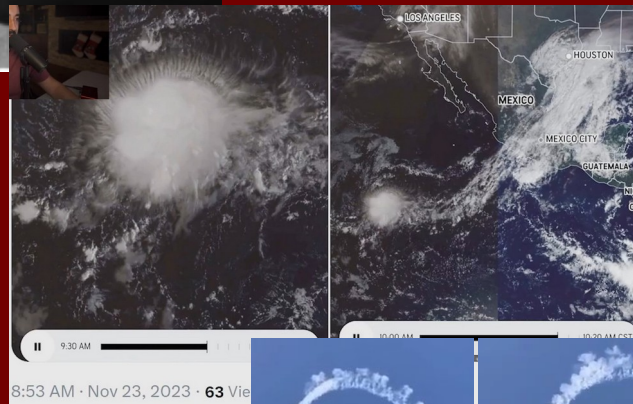

Geoengineering

- Geoengineering is het manipuleren van het weer;
- Het bestaat al sinds de jaren 60. Tijdens de Vietnam oorlog werd Operatie Popeye uitgevoerd in Vietnam door het Ministerie van Defensie van de VS;
- Nee, het is geen complot-theorie maar complot-praktijk;
- Er zijn verscheidene internationale verdragen en regelmatig beschuldigen landen elkaar van het veroorzaken van aardbevingen, droogten en extreme regenval;
- Geoengineering bestaat uit verschillende onderdelen, de meest zichtbare is de chemtrails, die voor iedereen zichtbaar zijn. Het andere deel is HAARP, een antenneveld dat frequenties uitzendt om de lucht te verwarmen, dit is zichtbaar in de chemtrails waar golven in te zien zijn. Er zijn ook nog andere vormen van luchtverwarmers, deze staan overal over de wereld verspreid. Daarnaast is er apparatuur om aardbevingen, tsunami's en vulkaanuitbarstingen te veroorzaken. Nee, er is niets futuristisch aan, deze apparaten zijn door Nikola Tesla ontworpen, een eeuw geleden. Als je deze technologie niet kent loop je een eeuw achter op de feiten;
- Waar is het voor? Voor het YaH-plan. De chemtrails bevatten giftige stoffen en metalen die nu al decennialang over de hele aarde gespreid worden. Er worden hongersnoden, overstromingen, vernietiging van grote gebieden door vulkaanuitbarstingen en aardbevingen veroorzaakt. Mensen worden steeds zieker door het vergif dat ze inademen en opeten en drinken, omdat het in de lucht en al het water en voedsel zit. Maw het doel is het uitroeien van Amalek. Tevens helpt het mensen ervan te overtuigen dat er een klimaatcrisis is en dus dat je meer belasting moet betalen, geen energie, olie, gas gebruiken en geen kinderen krijgen, want alles heeft een Kabbalistische voetprint.

To be banned by Article I, the use of prohibited techniques must meet all the following criteria:

- be for **hostile purposes**;
- cause destruction, damage or injury to **another State Party**;
- have widespread, long-lasting or severe **effects**.

As examples, the Understandings also include a non-exhaustive list of phenomena that could result from the use of environmental modification techniques: earthquakes and tsunamis; an upset in the ecological balance of a region; changes in weather patterns (clouds, precipitation, cyclones and tornadic storms); changes in climate patterns; changes in ocean currents; changes in the state of the ozone layer and changes in the state of the ionosphere.

ENMOD

ABSTRACT

The 1978 “Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques” [ENMOD] obligates signatory nations to fundamentally compromise their own sovereignty and to bring about widespread, permanent agricultural devastation. Instead of *prohibiting* “*Hostile Use of Environmental Modification Techniques*”, as its title suggests, ENMOD *obligates* signatory nations to participate in unspecified “*peaceful*” environmental modification activities performed by unspecified entities, under unspecified circumstances, without limitation to harm, whether inflicted on a nation or region’s agriculture, its environment, or on health of its population, that is, its citizenry. Large-scale *environment modification* cannot be construed as “peaceful”; it is instead fundamentally hostile. Ongoing undisclosed tropospheric aerosol particulate geoengineering has already begun to have devastating consequences for agriculture, as well as widespread, long-lasting, and severe effects on human and environmental health. These effects include lung cancer, cardiac, neurodegenerative, respiratory, and other diseases; the disruption of once stable weather patterns; the decimation of insect, bat, and bird populations; the exacerbation of wildfires and the death of forests; the propagation of harmful algae in our waters; and the destruction of the ozone layer that shields life from the sun’s deadly ultraviolet radiation. Ongoing sanctioned covert *environmental modification* activities constitute de facto warfare on sovereign nations. Moreover, those activities are blatantly contradictory to the missions of other United Nations’ entities, including, but not limited to, the World Health Organization, the Rio Declaration on Environment and Development, and the Food and Agriculture Organization. Agricultural collapse and mass starvation are one of the potential consequences of environmental modification “for peaceful purposes.” Covert global *environmental modification* activities must be halted immediately, and permanently, if we and our progeny are to survive. The operation should be exposed to public scrutiny. When aerial particulate tropospheric emplacement ceases, the last geoengineered particulates will fall to Earth in a matter of days or weeks and global warming will be reduced. Agricultural production and public health will improve worldwide.

ENMOD

Critique of the ENMOD Trojan horse

ENMOD [5] Article I states:

“1. Each State Party to this Convention undertakes not to engage in military or any other hostile use of environmental modification techniques having widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other State Party.”

“2. Each State Party to this Convention undertakes not to assist, encourage or induce any State, group of States or international organization to engage in activities contrary to the provisions of paragraph 1 of this article.”

Whereas a cursory or superficial reading of the ENMOD treaty might seem to prohibit hostile uses of environmental modification, careful examination leads to an entirely different understanding. The phrase “*undertakes not to*” sounds prohibitive, but it is a ‘toothless tiger’ in the legal sense. Were the intent to prohibit, the phrase “*shall not*” rather than “*undertakes not to*” would have carried the force of law.

The ENMOD treaty, we allege and explain below, has a different purpose. It is a Trojan horse that obligates the unwitting cooperation of independent signatory countries, i.e. “*States Parties*”, in the waging of future hostile environmental modification – de facto warfare – for “*peaceful purposes*,” without limitation against harm to human and other biogenic populations in the broadest possible circumstances. And it does so without defining “*peaceful purposes*”.

ENMOD, we allege, is a *Trojan horse*. The subject of its title, “Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques,” is not prohibited, which it would have been had the mandatory “*shall*” been used. Instead, the true intent of ENMOD is to *mandate international co-operation* in the “*...improvement...of the environment.*” Examples of such environmental “improvement” might include climate engineering to control global warming, or to bring rains or postpone them, or to melt Arctic ice for commercial operations, among other examples. Are such global engineering projects “peaceful”?

Evidence of ENMOD environmental modification activities

Jet-sprayed particulate trails in the troposphere have been observed by concerned citizens for decades [12-15]. Since at least 2010, possibly earlier, the aerial-spraying has become a near-daily, near-global activity that has generated considerable concern among citizens [15]. Figure 2 shows some examples of the tropospheric particulate trails. Immediately after spraying, the trails spread out, briefly resembling cirrus clouds, before becoming a white haze in the sky [9]. Particulates thus emplaced into the troposphere become heated by solar short- and long-wave radiation and by long-wave radiation from Earth’s surface, transferring that heat through molecular collisions to the surrounding atmosphere, which in turn reduces the adverse temperature gradient relative to near-surface air, thus reducing convection-driven heat loss, and concomitantly causing local and/or global warming [16].

ENMOD

In the application of *environmental modification techniques for peaceful purposes* mandated by ENMOD [5], not only are the existence and operational details not disclosed to the public, but the public is also systematically deceived [17-19].

There are concerted efforts to deceive the scientific community [18,19] (as well as the public) into believing that particulate trails, such as shown in Figure 2 are ice-crystal 'contrails' that are sometimes produced by moisture vapor in jet exhaust under conditions of high humidity and low-temperature [20].

Concerned citizens have taken numerous photographs showing that the particulate trails observed are physically inconsistent with being ice-crystal contrails [9,15,21]. Figure 3 shows both the typically white trails, like those in Figure 2, which are consistent with coal fly ash [7-9,21] and show much scattered light, and black trails, likely produced by carbon black, which absorbs light much more efficiently with far less scatter than other aerosols. Ice crystal contrails are never black. The near-total reflectivity of snow evidences the extremely low spectral absorbance of ice [22]. One of us (JMH) witnessed white trails beneath the cloud cover over Frankfurt, Germany, and black trails above the clouds, presumably emplaced there so as to be difficult to observe.

What "improvement and peaceful utilization of the environment" [5] could possibly be attained by heating the troposphere on a near-daily, near-global scale? Evidence suggests that one of the ENMOD 'environmental improvements' is to melt polar ice to open a Northeast or Northwest Passage for global shipping lanes as well as to permit access to underlying petroleum and mineral resources. But make no mistake: Such "improvement" is neither "peaceful," nor non-injurious to human and biotic health generally. It is in fact categorically hostile. It represents a direct attack on global agricultural production as well as on human and environmental health, as described below. Moreover, it is not otherwise disclosed to the public, for instance, in public safety warnings. Furthermore, it plays into or accommodates the UN's "science-based" political ideology that greenhouse gases

are the sole or "primary" cause of global warming - thus necessitating climate 'intervention' activities.

Non-peaceful crippling of agriculture and health

Humans require food to eat, water to drink, and air to breathe. Global geoengineering that degrades any of these three fundamental resources also has the effect of degrading the sovereignty of nation states.

Emplacing air pollution particulates into the troposphere, the region where clouds form, or into the stratosphere where in time geoengineered aerosols precipitate out into the troposphere, has adverse consequences for agriculture that are already severely harming agriculture:

Particulate pollution particles cause local, regional, or global warming [23-26] leading to reduced crop yields [27,28].

Particulate pollution particles inhibit rainfall, causing drought at one location while causing deluges and floods at another [3,9].

The global warming thus produced causes increased evaporation and increased rainfall [7].

Upon settling to ground or to water, pollution particles absorb solar radiation and heat the surface; on snow and ice they cause melting and also reduce albedo, which leads to further global warming [16].

Aerosolized particles cause climate chaos, disrupting more-or-less stable weather patterns that have made agriculture possible [9,28-31].

Geoengineered disruption of weather patterns can exacerbate decimation of agricultural crops, for example, by locusts [32].

Aerial particulates decimate populations of beneficial wildlife, like bees [33], bats [34], and birds [35].

Particulates used in the aerial spraying, evidenced as coal fly ash, poison the soil and water with multiple toxic elements, including mercury [8], arsenic and thallium [36], and the plant toxin, chemically mobile aluminum [10,37,38].

Coal fly ash particulates, when lofted into the stratosphere [39-41], destroy protective atmospheric ozone and allow solar ultraviolet radiation to damage plants, making them more susceptible to pathogens [10,42].

Atmospheric particulates reduce available sunlight to the detriment of crops [43] just as they reduce the energy output of solar cells [44].

Particulate matter that settles on leaves reduces transpiration and hampers growth [45].

Rainwater-extracted elements from aerosol particulates, including toxins such as chemically mobile aluminum, upon wetting the leaves, become concentrated by evaporation and drip down to poison the roots [10].

Aerosol particulates, especially coal fly ash, raining down into fish farms and other aqueous bodies, shifts the phytoplankton balance in the direction of harmful algae and cyanobacteria [46].

Emplacing air pollution particulates - including, but not limited to, coal fly ash - into the troposphere also has known adverse consequences for human health:

ENMOD

Air pollution particulates are the leading environmental cause of morbidity and mortality worldwide [47,48].

Air pollution spherical magnetite particulates are found in the brains of persons with dementia [49,50].

Reactive iron magnetic particulates were recently found in abundance in hearts of persons from highly polluted areas [51].

Air pollution is a major contributor to both stroke and neurodegenerative disease [49,52,53].

Air pollution particulate particles penetrate deep into lungs and systemic circulation and contribute to stroke [54], heart disease [51,54], lung cancer [55], COPD [56], respiratory infections [57], and asthma [58].

Air pollution particulates are a risk factor for spontaneous pregnancy loss [59,60], cognitive decline at all ages [61], Alzheimer's Dementia later in life [61], children having cognitive defects [62,63], and, for cognitive decline in older women [64].

The Director-General of the UN's World Health Organization recently noted [65] that the simple act of breathing is killing seven million people a year and injuring billions more. "No one, rich or poor, can escape air pollution," he acknowledges, "Despite this epidemic of needless, preventable deaths and disability, a smog of complacency pervades the planet." In accordance with the Precautionary Principle in Public Health [66,67], as credentialed professionals two of us (JMH and MW) submitted to the *Bulletin of the World Health Organization* a Perspective warning of the worldwide health risks of the *environmental modification* by jet-emplaced particulate pollution. That Perspective was rejected without review [68].

The UN's Rio Declaration on Environment and Development [69], a pillar of UN's Convention on Biological Diversity, declares: "States shall cooperate in a spirit of global partnership to conserve, protect and restore the health and integrity of the Earth's ecosystem." The population decimation of insects [33], bats [34] and birds [35] and the disruption of ecological balance in nature [8,10,46] caused by tropospheric particulate spraying all stand in striking conflict with the above stated mandate of the UN's Rio Declaration [69].

As U. S. Vice President Lyndon B. Johnson stated in a May 27, 1962 address to Southwest Texas State University [70], "He who controls the weather will control the world." World control, that is, the power to exercise world authority, is the UN's intent in its implementation of ENMOD [5], of its so-called *environmental improvement* mandate, to which all other UN organizations are subordinate, including its Food and Agriculture Organization.

In 1968, MacDonald [2] wrote of "...removing moisture from the atmosphere so that a nation dependent on water...could be subjected to years of drought. The operation could be concealed by the statistical irregularity of the atmosphere. A nation possessing superior technology in environmental manipulation could damage an adversary without revealing its intent." In 2016, one of us (JMH) wrote [21]: "The development of a methodology for inhibiting rainfall by spraying pollution particulates into the troposphere has now progressed to an operational level. The potential use of that may constitute threats to the agriculture for any nation so targeted."

Figure 5 is a NASA Worldview satellite image from February 4, 2016 that shows particulate trails blanketing the Republic of Cyprus, but nearly absent in surrounding regions. Cyprus citizens, so far to no avail, requested an explanation from their government for the deliberate obscuration of their skies and "extreme weather conditions" [71]. Following the February 2016 presentations made to the Parliamentary Environmental Committee, the Environment Services Department promised an investigation of the aerial spraying, but to date no response has been received.

ENMOD

CONCLUSIONS

The United Nations deceived many governments to sign on to a treaty that obligates them to be unwitting pawns in compromising their national sovereignty and in their own unwitting slow destruction. Instead of *prohibiting "Hostile Use of Environmental Modification Techniques,"* as its title suggests, ENMOD *obligates* signatory nations to consent to and even participate or acquiesce in unspecified "peaceful" environmental modification activities performed by unspecified entities, under unspecified circumstances, without limitation to harm inflicted on agriculture, the environment, or human health.

Large-scale *environment modification* is not peaceful, but extremely hostile. Ongoing undisclosed tropospheric aerosol geoengineering and other geoengineering activity have already begun to have devastating consequences for agriculture, as well as widespread, long-lasting, and severe effects on human and environmental health.

No one has the right to poison the air we breathe, or to disrupt agriculture and poison the soil, or to cause weather and climate chaos, or to slowly and insidiously cause lung cancer, cardiac, neurodegenerative, respiratory, or other diseases that will inevitably result from the aerial spraying, or to harm God's creatures in the same way – specifically by disrupting once stable weather patterns, decimating insect, bat, and bird populations, exacerbating wildfires and destroying forests, enabling harmful algae in our waters, and destroying the ozone layer that shields life from the sun's deadly ultraviolet radiation. Yet these are all consequences of the ongoing ENMOD-sanctioned *environment modification*.

Ongoing *environmental modification* activities, we allege, constitute de facto warfare on sovereign nations, warfare that cripples agriculture, damages the biosphere, and leads to massive

human suffering and death. Moreover, those activities are blatantly contradictory to the missions of other UN entities, including, but not limited to, the World Health Organization, the Rio Declaration on Environment and Development, and the Food and Agriculture Organization.

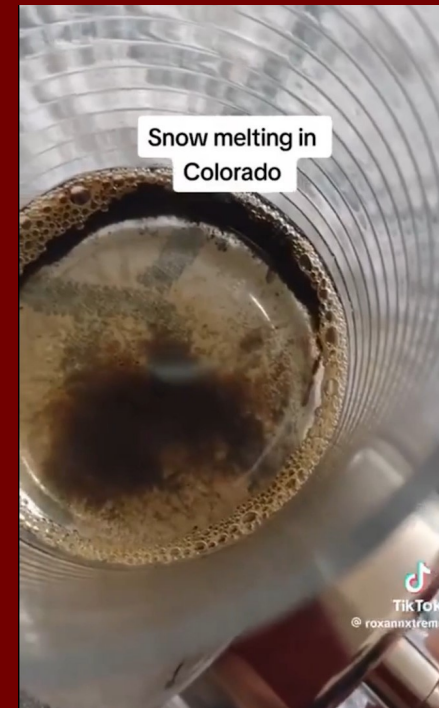

The absence of public disclosure and concerted disinformation about the ongoing ENMOD-sanctioned *environmental modification* activities is further evidence of deceitful intent. Moreover, the techniques developed can be applied surreptitiously by lawless states to inflict agriculturally devastating droughts on enemy nations.

Life on Earth is possible because of a delicate balance between myriad biota and their environments. The adverse consequences of ENMOD-sanctioned *environmental modification* activities pose the greatest *anthropogenic threat* to life on Earth. Agricultural collapse and mass starvation are one of the potential consequences. Environmental modification activities must be halted immediately and permanently if we and our progeny are to live healthy lives.

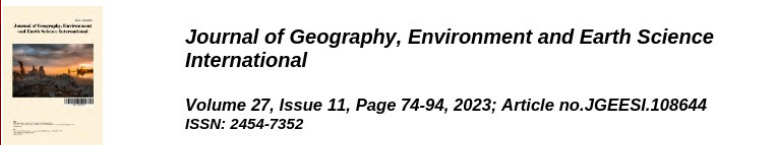

The covert global operation should be exposed to public scrutiny.

When tropospheric particulate emplacement ceases, the pollution particles will fall to Earth in a matter of days or weeks, global warming will be reduced, and that will lead to improvements in agricultural production, public and environmental health, and the long-awaited return of natural blue skies, a boon to the spirits of people everywhere on Earth.

Review Article

ABSTRACT

For a half century, the military has been developing technologies to turn climate and extreme environmental phenomena into weapons.

This study is a literature review, which was conducted with the following objectives: 1/ to expose the known powerful military technologies of climate and environmental modification; 2/ to emphasize that many extreme environmental events observed in recent years coincide with the effects that these military technologies are able to generate; 3/ to analyze the conclusions of the Intergovernmental Panel on Climate Change (IPCC) on the origins of the increase in natural disasters.

The literature used comes from official sources: peer-reviewed scientific articles (except one); patents; intergovernmental organizations; military documents; policy documents; university documents; national newspapers; news agencies; writings by respected scientists in their fields.

Results of the literature review reveal that HAARP (High-frequency Active Auroral Research Program), the most powerful ionospheric heater in operation, is able to influence climate. High-power electromagnetic pulses in the earth's crust, produced by a mobile magneto-hydrodynamic generator, is a technique developed since the 1970s to trigger earthquakes. Directed energy weapons, a real technology, can ignite destructive fires at range. For several years, official documents report effects on health and the environment similar in all aspects to those that would be detected if solar geoengineering by stratospheric aerosol injection, a climate-altering technique, was used. Due to numerous biases and a lack of objectivity, the IPCC's arguments on the causes of the growth in extreme environmental phenomena (heat and cold waves, storms, hurricanes, tornadoes,

droughts, floods, wildfires, air pollution, etc.) are flawed. The solar hypothesis isn't appropriate either, given its low activity for several years.

In conclusion, the use of military climatic and environmental modification technologies appears to be the most relevant explanation to understand the increase in natural disasters over the last 20 years.

Keywords: Air pollution; drought; electromagnetic waves; earthquake; extreme weather; HAARP; solar geoengineering; wildfires.

HAARP

At least 50 countries are already using weather-modifying technology. China uses this method on almost 50% of its territory [1,2]. The most widely used technology is cloud-seeding, which aims to enhance precipitation [3,4,5]. Rather than using traditional cloud seeding, which raises significant health and environmental safety concerns due to byproduct fallout, the United Arab Emirates employs drones, designed to target certain clouds, that produce electrical discharges via concentrated lasers to forcibly pool water droplets in the air, thus triggering desired rainfall [6].

But it's the military who are most interested in weather modification techniques, with objectives much more ambitious than simply making it rain. In 1957, Lyndon B. Johnson stated: "From space one could control the earth's weather, cause drought and floods, change the tides and raise the levels of the sea, make temperate climates frigid". Since the 1970s, through a climate control program called Climate Dynamics, the Pentagon studied how the United States could melt ice caps, generate destructive storms, and use "key environmental instabilities" to unleash huge amounts of energy. They had discovered how the United States, acting secretly from space, could inflict bad weather on the Soviet Union. In the Soviet Union, engineers were able to reverse the course of the Pechora River, which flows through the Arctic, to create inland seas, which would alter the global climate [7].

The first meteorological manipulation for military purposes was the well-known Operation Pop-Eye (cloud seeding) carried out during the Vietnam War, whose aim was to prolong the monsoon. The rain was of acid quality and the ecological risks were totally unknown [8]. As a result of this military operation, the UN established, in 1976, the Environmental Modification Convention (ENMOD). However, this convention is not sufficiently precise and offers the opportunity to

circumvent and adapt almost everything that is written. For example, the convention allows for the research and development of climate weapons or the use of such techniques against a non-signatory state [9,10]. Note that France is not a signatory state.

Fifty years ago, Gordon J. F. MacDonald (geologist, geophysicist and member of President Johnson's Science Advisory Committee), heavily involved in weather modification work, predicted a new war strategy in a chapter ("How to Wreck the Environment") in a book entitled "Unless Peace Comes" written in 1968. The author explains that future conflicts will be linked to the manipulation of the environment. These wars will be secret because storms, floods, droughts, earthquakes and tidal waves are unusual, but not unexpected, and will be able to continue for years in total discretion [17]. In 2012, The British newspaper "The Guardian" published a letter from a former aerospace and defense executive advisor, who explained that weather was weaponized by at least four countries: "... US, Russia, China and Israel possess the technology and organisation to regularly alter weather and geologic events for various military and black operations, which are tied to secondary objectives, including demographic, energy and agricultural resource management... Warfare now includes the technological ability to induce, enhance or direct cyclonic events, earthquakes, draught and flooding, including the use of polymerised

HAARP

aerosol viral agents and radioactive particulates carried through global weather systems..." [18].

Scientific publications, numerous official documents and observations show that military climate modification techniques may have been in use for over 20 years [12,13].

What technologies could be used to generate extreme meteorological, climatic and environmental phenomena (heat and cold waves, air pollution, storms, hurricanes, tornadoes, droughts, floods, wildfires, strong earthquakes, etc.) ?

Electromagnetic radiations seem to be the common point in most research into climate and environmental weapons [12,13]. The first part of the article is focused on directed beams of high-power electromagnetic waves. The second part is devoted to solar geoengineering by stratospheric aerosol injection (SAI), and its association with electromagnetic waves. The third part completes the previous two and reconsiders the authoritative version of the causes leading to the increase in extreme climatic and environmental phenomena.

2.1 Directed Energy in Ionosphere

2.1.1 Ionospheric heater

An ionospheric heater (IH) sends high frequency (HF) waves at high power in the ionosphere to disturb it and observe the effects. The most known is HAARP (High-frequency Active Auroral Research Program) (Figs. 2, 4). Officially, the axes of research of HAARP are: Plasma physics, radio science, mesosphere-thermosphere diagnostics, space weather, arctic maritime domain awareness, magnetosphere-radiation belt, sub-auroral physics, plasma duct

generation, ELF propagation, detection of cavities in the Earth, over-the-horizon radar, citizen science and amateur radio, trends in ionospheric and atmospheric conditions, including trends in global change. Between 1990 and 2014, HAARP was a military program. Since 2015, responsibility for HAARP facilities and equipment has been transferred from the University of Alaska Fairbanks (UAF), but the land is still owned by the US Air Force [21].

HAARP operates between 2.7 and 10 megahertz (MHz) with a peak power (PP) of 3.6 megawatts (MW) [21]. Because HAARP employs a phased array antenna, energy can be concentrated along variable directions, producing an effective radiated power (ERP) in the few gigawatts (GW) range (at least up to 5.1 GW). Heating with higher frequencies results in an increase in ERP and allows to focus the pump power on a smaller point in the ionosphere, which again increases the heating efficiency [22,23,24].

In the world there are other IHs: Russia (SURA) operates between 4.5 to 9.3 MHz with a PP of 750 kilowatts (750 kW) and an ERP of 190 MW; Norway (EISCAT), 3.85 to 8 MHz, PP of 1.2 MW and ERP of 1.2 GW; Peru (JRO), 50 MHz with a PP of 6 MW (Figs. 1, 4) [25]. IHs can propagate their HF beams over very long distances, for example from Norway to Antarctica [26].

Scientists are also working on the construction of mobile IHs (on the barge of a ship) with the same technical capabilities as HAARP (Fig. 2). These studies are supported by the Air Force Office of Scientific Research [27,28,29,30].

2.1.1.1 Ionospheric heater effects on weather

The experiments produced by HAARP generated unprecedented disturbances in the ionosphere [22]. Although the UAF states that HAARP cannot alter meteorology, B. Eastlund, whose applications initiated the development of HAARP [31,32,33], asserts that HAARP's capabilities are adequate to generate weather control [34]. According to a university report, written in 1998, the whole truth about HAARP would not officially be disclosed. This technology can lead to dangerous imbalances for the environment and people [35]. The 1999 European Parliament report states that HAARP created holes in the ionosphere and can be used as a directed energy weapon to induce climate disruption and manipulate global weather patterns [36,12].

In addition to modifying wind patterns (as in another patent [31]), the technology developed by the Eastlund's patent [32] enables modification of the atmospheric molecular composition, as well as increasing the concentration of one or more molecules in an

atmospheric region (e.g. ozone, nitrogen, etc.).

Stikstof. Gaat er een belletje rinkelen?
Aah, gewoon de koeien de schuld geven...

HAARP

It is important to note that two patents relating to HAARP technology are classified as a directed energy weapon [32] and a device or method for influencing weather conditions [34]. Therefore, in accordance with the European Parliament's 1999 report [36,12], an IH such as HAARP has the capacity to be used to modify the climate.

2.2 Links between Earthquakes and Electromagnetic Waves

2.2.1 Earthquakes triggered by electromagnetic impulses

Tectonic weapon has been a military objective since the Second World War. In 1944, an English scientist created an earthquake bomb [49]. Later, Soviet programs worked on triggering earthquakes by electromagnetic impulses [50].

Through heating, HAARP can create artificial ionization layers, produce magnetic field disturbances, various luminous structures, airglow and artificial auroras, sometimes visible to the naked eye [74,75].

Fig. 3. Australia, powerful VLF transmitter (North West Cape (NWC) transmitter: Naval Communication Station Harold E. Holt) [45]

Scientific publications that do not acknowledge the existence of the use of solar geoengineering by SAI nevertheless shows that persistent aircraft trails are composed of many metal particles [13]. Using solar spectrometry irradiance measurements, a study showed that these persistent aircraft trails are not ice crystal condensation trails, but chemical trails [85]. Documents linking these persistent trails to chemical spray weather modification technology show that the content appears to be particularly concentrated in aluminum (Al), barium (Ba), nanoparticles and sulfur [13]. Neither Al and Ba, nor nanoparticles are monitored in international air pollution analyses [86].

3.2 SAI Effects and Their Coupling with Electromagnetic Waves

A 1996 military report showed that electromagnetic technology requires chemical spraying to manipulate weather, added to the use of nanotechnology to create artificial meteorology around 2025 (e.g. smart clouds composed of microscopic computer particles), so that deliberate actions can be taken for natural weather phenomena [78]. This was corroborated in 2009 by a U.S. Air Force report, stated that around 2030, with the help of nanotechnology, the US military will be able to create (not just modify) weather (storms, fog, clouds, etc...) in a defined area [87].

It would seem that 50% of forest fires in the western United States are caused by lightning [80], but it has also been reported (in section 2.3) that some directed energy technologies are able to trigger and control lightning [79,80]. A military document explains that directed energy weapons (DEWs), composed for example of lasers, radio frequency devices, high power microwave, millimeter wave and particle beam technology, can ignite destructive fires, at range. Moreover, as it is difficult to locate the source of the directed energy, DEWs are often used in special or covert operations. Authors of this report assert that the world has reached a "tipping point" in which directed energy is now essential to successful military operations [105]. DEWs using specific military devices (aircraft, ship, combat vehicle, etc.) are not science fiction [106]. Note that forest fires are part of the environmental weapons implemented by the US military [107].

For the World Economic Forum (WEF), it is necessary to unlock \$3 Trillion a year for climate and nature [136]. There are huge financial interests behind climate policy, as well as the progressive implementation of energy control laws [137], and taxing carbon as part of the global governance plan outlined by the WEF [138].

Given that the IPCC's argument on the increase in extreme events in recent years lacks a significant degree of objectivity, and that global climate management generates enormous financial stakes, it would seem that the most plausible explanation for the rise in extreme events (at least some of them) over the last 20 years is not natural, but rather due to the use of military climate and environmental modification technologies.

The title might suggest that this is a fictional work about an invasion from outer space. Wrong. It is a true recitation of forensic scientific and medical investigations of a near-global, near-daily conspicuous activity whose actual nature and intent is cloaked in secrecy and disinformation.

Throughout the academic scientific literature there are numerous references to a toxic waste produced by industrial coal burning called *coal fly ash* [18-20]. The annual global production of coal fly ash reported in 2014 was 130 million metric tons [21]. This could be a sufficient supply to jet-spray as an aerosol on the scale observed. Notably, a Spanish laboratory's experiments were conducted in 2005, mixing coal fly ash with distilled water for 24 hours. The results showed that at least 38 elements were partially dissolved in the water [22]. The dissolved elements included aluminum, barium, and strontium. Bingo!

In response to an urgent call by Indian scientists in 2015 [23] for assistance to understand the geological association of highly mobile aluminum with human health in the Alluvial Plain of the Ganges River, one of us (JMH) showed [24] that Internet-posted pairs of elements, aluminum/barium and strontium/barium measured in rainwater were similar to corresponding element pairs extracted into water from coal fly ash in the experiments conducted by Spanish scientists. Published in 2015, the *Current Science* paper was the first

article in the scientific literature that not only mentioned "chemtrails" but provided the first scientific evidence that toxic coal fly ash was the main substance being jet-sprayed into the lower atmosphere to produce chemtrails.

Perhaps the best evidence of the *Current Science* paper's correctness was the immediate demand for retraction delivered not only to that journal but soon thereafter to two public health journals that also had peer-reviewed and published subsequent work by Herndon on the adverse health impacts of deliberately aerosolized coal fly ash. In the latter instances, The US editors retracted the papers *without allowing the author to see or respond to the complaints* [25]. Such behavior is outrageous. Only about 1 in 15,000 peer-reviewed, published scientific articles is retracted, and that only occurs after the authors are confronted with the allegations of wrongdoing and are given the opportunity to defend themselves.

Coal fly ash has thus become a toxic environmental nightmare consisting mainly of tiny spherical particles. (Figure 4) These particles contain concentrations of the most hazardous chemical elements in coal, each of which can harm the natural environment in numerous ways. For example: Aerosolized coal fly ash contaminates the environment with mercury, one of the most toxic poisons known, and known to move up the food chain [29]. Chlorine from aerosolized coal fly ash, lofted into the upper atmosphere (stratosphere), destroys Earth's ozone layer, and exposes all surface life to the deadly ultraviolet radiation from the sun [30]. Contaminating the environment with the massive quantities of iron contained in coal fly ash upsets the delicate iron balance in nature and in the bodies of exposed biota [31, 32].

Aerosolized coal fly ash's ultrafine particles and nanoparticles can enter the blood stream through the nasal bulb or through alveoli in the lungs. These particles can collect in the brain [33, 34] and in the heart [32]. When exposed to body fluids, coal fly ash can release a host of toxic chemicals including neuro-toxic, chemically mobile aluminum, and carcinogens such as arsenic, hexavalent chromium, as well as the ash's radioactive elements. The elements from coal fly ash may produce many toxic effects, including decreased host defenses, tissue inflammation, altered cellular redox balance toward oxidation and genotoxicity which can lead to chronic lung disease [35], lung cancer [36], and neurodegenerative diseases [33].

Vernietiging Van Amalek

Humans are not the only life form adversely affected by jet-emplaced coal fly ash. Plants, trees and indeed whole forests are harmed by coal fly ash chemtrails in three main ways. Plants and trees are damaged by chemtrail-caused drought and poisoned by the chemically mobile aluminum added to atmospheric water. They are also damaged by the increased levels of harmful solar ultraviolet radiation caused by chemtrail-destruction of ozone, which shields life against dangerous ultraviolet radiation. Orchards and agricultural plants are affected similarly [38].

Atmospheric manipulation that utilizes aerosolized coal fly ash is a primary factor in the extent and severity of forest fires in California and elsewhere; other adverse effects include exacerbation of drought, tree and vegetation desiccation and die-off, and the unnatural heating of Earth's atmosphere and surface regions [16]. Forest combustibility is increased by moisture-absorbing aerosolized particles that damage the waxy coatings of leaves and needles, reducing their tolerance to drought. The aerosolized coal-fly-ash-chemtrail climate manipulation greatly increases the potential for forest fire ignition by lightening. Wildfires dramatically worsen baseline air pollution, emitting harmful gases and volatile organic compounds, and they both concentrate and re-emit toxic elements and radioactive nuclides over wide areas. The type of air pollution created by wildfires is associated with increased all-cause mortality worldwide, with the greatest impact on respiratory and cardiovascular disease.

Wildlife species are suffering a precipitous global decline [1]. Aerosolized coal fly ash is a significant factor in the catastrophic global decline in the populations of insects [39], birds [28], and bats [40]. Insects can ingest and/or accumulate toxic coal fly ash on their body surfaces which then birds and insectivorous bats consume. Coal-fly-ash-chemtrails disrupt the natural environment, modify habitats, and adversely affect the natural life cycles, upsetting the complex and delicate balance that makes life possible on Earth. Even marine environments are affected; for example, chemtrails cause shifts in the global plankton community balance in favor of harmful algae and cyanobacterial blooms in fresh and salt water [31]. And corals are harmed by increased levels of solar ultraviolet radiation [41].

What other evidence points to direct United Nations involvement?

For nearly four decades, the United Nations through its Intergovernmental Panel on Climate Change has been extracting vast sums of money from wealthy nations to promote the idea that climate change – global warming – is caused by anthropogenic fossil-fuel-produced carbon dioxide. The goal seems to be to control or shut down fossil fuel use in favor of renewable energy sources to ameliorate global warming. Yet through its ENMOD treaty the United Nations has simultaneously sanctioned secret activities that in fact *cause* global warming [50-56]. This must be the greatest scientific fraud ever perpetrated.

Unless and until politicians, news media, scientists, and others in our society face the truth of what is happening before their very eyes and collectively demand a halt to these covert technological activities, we will continue to charge full-speed-ahead into the first anthropogenic-caused mass extinction.

ABSTRACT

Earth's life support systems are breaking down, including the stratospheric ozone layer, which protects all higher life on the planet from deadly ultraviolet radiation. This breakdown is a direct result of human activities including the large-scale manipulation of processes that affect Earth's climate, otherwise known as geoengineering. We present further evidence that coal fly ash, utilized in tropospheric aerosol geoengineering, is the primary cause of stratospheric ozone depletion, not chlorofluorocarbons, as "decreed" by the Montreal Protocol. The misdiagnosis was a potentially fatal mistake by mankind. Coal fly ash particles, uplifted to the stratosphere, are collected and trapped by polar stratospheric clouds. In springtime, as these clouds begin to melt/evaporate, multiple coal fly ash compounds and elements are released to react with and consume stratospheric ozone. Contrary to the prevailing narrative, the stratospheric ozone layer has already been badly damaged and now increasingly deadly ultraviolet radiation, UV-B and UV-C, penetrates to Earth's surface. Our time is short to permanently end all geoengineering activities, and to reduce and/or eliminate all sources of aerosolized coal fly ash, including first and foremost the jet-sprayed emplacements into the troposphere that are systematically breaking down Earth's support systems and poisoning life on this planet.

During industrial coal burning, the heavy ash settles beneath the burner; the light ash, coal fly ash, forms in the gases above the burner and exits the smokestacks, unless, as in Western nations, it is trapped by electrostatic precipitators and sequestered. Even so, ultrafine aerosols from coal burning are likely to escape electrostatic precipitators [61] or be wind-blown from sequestration areas [62]. But the most devastating adverse consequence for life on this planet is the deliberate, covert, near-daily, near-global jet-emplacement of particulates, evidenced as coal fly ash, into the upper troposphere (Figure 2) [6, 13, 24, 63].

Primary elements in coal fly ash are oxides of silicon (Si), Aluminum (Al), iron (Fe), and calcium (Ca), with lesser amounts of magnesium (Mg), sulfur (S), sodium (Na), Chlorine (Cl), and potassium (K). Carbon (C) is present in its elemental form. The many trace elements in coal fly ash include arsenic (As), barium (Ba), beryllium (Be), cadmium (Cd), chromium (Cr), copper (Cu), lead (Pb), manganese (Mn), mercury (Hg), nickel (Ni), phosphorus (P), selenium (Se), strontium (Sr), thallium (Tl), thorium (Th), titanium (Ti), uranium (U), vanadium (V) and zinc (Zn). Generally, concentrations of these trace elements in coal fly ash are typically higher than those found in the Earth's crust, soil, or even solid coal [115]. At least 39 elements can be partially extracted from coal fly ash by exposure to water [69]. Aerosolized coal fly ash makes atmospheric water more electrically conductive because of the many dissolved, ionized elements [116].

All geoengineering must cease. All sources of aerosolized coal fly ash must be reduced and eliminated. Tropospheric jet-spraying of coal fly ash and any other particulate matter must cease and desist. That is necessary to salvage what we can of Earth's vital life support systems, including the stratospheric ozone layer.

Invisible Plasma Shield, Which Protects Earth From Radiation, Discovered 7,200 Miles Above Planet

BY KUKIL DORA ON 11/27/14 AT 7:27 AM

Scientists have discovered a sharp boundary above the Earth's surface that blocks the ultrafast electrons from entering Earth's atmosphere. Photo: Reuters

The Earth is protected from fast-moving "killer electrons" by an invisible plasma shield, which is located thousands of miles above the planet's surface, according to researchers at the Massachusetts Institute of Technology (MIT) and the University of Colorado Boulder.

High above the Earth's atmosphere, harmful electrons that make up the outer band of the Van Allen radiation belt travel at nearly the speed of light, pelting everything in their path. Exposure to such high-energy radiation can harm satellite electronics and pose serious health risks to astronauts. However, despite their intense energy, these electrons -- circling around the planet's equator -- cannot come below 7,200 miles from the Earth's surface due to the shield, scientists said in a study, published in the journal Nature on Thursday.

"It's almost like these electrons are running into a glass wall in space," Daniel Baker of the University of Colorado Boulder and the study's lead author said, in a statement. "Somewhat like the shields created by force fields on Star Trek that were used to repel alien weapons, we are seeing an invisible shield blocking these electrons. It's an extremely puzzling phenomenon."

The invisible shield, dubbed the "plasmaspheric hiss," is made up of very low-frequency electromagnetic waves in the Earth's upper atmosphere. Scientific data and calculations have helped researchers deduce that the hiss deflects incoming electrons, causing them to smash into neutral gas atoms in the Earth's upper atmosphere, and ultimately disappear.

"It's a very unusual, extraordinary, and pronounced phenomenon," John Foster, associate director of MIT's Haystack Observatory, said in a statement. "What this tells us is if you parked a satellite or an orbiting space station with humans just inside this impenetrable barrier, you would expect them to have much longer lifetimes. That's a good thing to know."

The latest study is based on data collected by NASA's Van Allen Probes that are orbiting within the harsh environments of the Van Allen radiation belt. During the study, the researchers observed an "exceedingly sharp" barrier against harmful electrons, which was steady enough to withstand a solar wind shock in October 2013. To determine what could create and maintain such a barrier, the researchers considered a few possibilities, including effects from the Earth's magnetic field and radio signals from human transmitters on Earth.

"It's like looking at the phenomenon with new eyes, with a new set of instrumentation, which give us the detail to say, 'Yes, there is this hard, fast boundary,'" Foster said.

"Killer electrons". "Neutrale geest atomen". Grappig. Dat zijn die orbs die niemand ooit gezien heeft. De zon is geen demon die ons wil vermoorden. De angst-porno moet doorgaan.

Er is ook geen Van Allen Belt radiation. Dat is de koepel (hemel) die op de aarde staat en waar niets doorheen kan. Zie volgende deel.

UV-Straling

Er is geen dodelijke UV-straling. Zoals we inmiddels weten straalt de zon geen licht uit. Er wordt een magnetische frequentie gegenereerd die de ether laat oplichten.

De intense hitte komt van de metalen, met name aluminium, dat in de chemtrails zit. Aluminium verhoogt de frequentie.

Onderzoek zelf.

Als je een bowl met water in de volle zon zet (in de zomer) wordt het water de temperatuur van de lucht. Als je de bowl eerst beplakt met aluminium papier zal het water tot 100 graden stijgen. Zo kun je in de woestijn zonder vuur te gebruiken koken.

Probeer maar eens als de zon schijnt in een wolk te kijken die door een chemtrail is gemaakt. Dat is nog moeilijker dan naar de zon kijken.

Newton argued that light is composed of particles or corpuscles, which were refracted by accelerating into a denser medium. He verged on soundlike waves to explain the repeated pattern of reflection and transmission by thin films (Opticks Bk. II, Props. 12), but still retained his theory of 'fits' that disposed corpuscles to be reflected or transmitted (Props.13). However, later physicists favoured a purely wavelike explanation of light to account for the interference patterns and the general phenomenon of diffraction. Today's quantum mechanics, photons, and the idea of wave-particle duality bear only a minor resemblance to Newton's understanding of light.

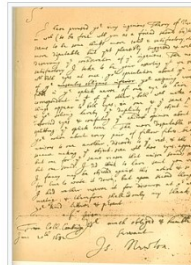

In his *Hypothesis of Light* of 1675, Newton posited the existence of the ether to transmit forces between particles. The contact with the Cambridge Platonist philosopher Henry More revived his interest in alchemy.^[65] He replaced the ether with occult forces based on Hermetic ideas of attraction and repulsion between particles. John Maynard Keynes, who acquired many of Newton's writings on alchemy, stated that "Newton was not the first of the age of reason: He was the last of the magicians."^[66] Newton's contributions to science cannot be isolated from his interest in alchemy.^[65] This was at a time when there was no clear distinction between alchemy and science, and had he not relied on the occult idea of action at a distance, across a vacuum, he might not have developed his theory of gravity.

In 1704, Newton published *Opticks*, in which he expounded his corpuscular theory of light. He considered light to be made up of extremely subtle corpuscles, that ordinary matter was made of grosser corpuscles and speculated that through a kind of alchemical transmutation "Are not gross Bodies and Light convertible into one another, ... and may not Bodies receive much of their Activity from the Particles of Light which enter their Composition?"^[67] Newton also constructed a primitive form of a frictional electrostatic generator, using a glass globe.^[68]

In his book *Opticks*, Newton was the first to show a diagram using a prism as a beam expander, and also the use of multiple-prism arrays.^[69] Some 278 years after Newton's discussion, multiple-prism beam expanders became central to the development of narrow-linewidth tunable lasers. Also, the use of these prismatic beam expanders led to the multiple-prism dispersion theory.^[69]

Subsequent to Newton, much has been amended. Young and Fresnel discarded Newton's particle theory in favour of Huygens' wave theory to show that colour is the visible manifestation of light's wavelength. Science also slowly came to realise the difference between perception of colour and mathematisable optics. The German poet and scientist, Goethe, could not shake the Newtonian foundation but "one hole Goethe did find in Newton's armour, ... Newton had committed himself to the doctrine that refraction without colour was impossible. He, therefore, thought that the object-glasses of telescopes must forever remain imperfect, achromatism and refraction being incompatible. This inference was proved by Dollond to be wrong."^[70]

Scientist predicts a new ice age by 21st century

Air pollution may obliterate the sun and cause a new ice age in the first third of the next century if population continues to grow and the earth's resources are consumed at the present rate, a pollution expert predicted yesterday.

James P. Lodge Jr. also warned that if the current rate of increase in electric power generation continues, the demands for cooling water will boil dry the entire flow of the rivers and streams of continental United States.

Looking into his "smoggy crystal ball," Lodge also warned that by the next century "the consumption of oxygen in combustion processes, the national center for Atmospheric Research in Boulder, Colo., said the nation's states, with the exception of Alaska and Hawaii, "are already consuming more oxygen than their own green plants replace and that we are importing the balance from the neighboring oceans."

Lodge, speaking at the Institute of Environmental Sciences, at the Sheraton Boston, said three factors could prevent these disasters: population control, a less wasteful standard of living, and a major technological breakthrough in the way man consumes the earth's resources.

This drought may never break

Richard Macey
January 4, 2008

IT MAY be time to stop describing south-eastern Australia as gripped by drought and instead accept the extreme dry as permanent, one of the nation's most senior weather experts warned yesterday.

"Perhaps we should call it our new climate," said the Bureau of Meteorology's head of climate analysis, David Jones.

SCIENCE

The Cooling World

Climatologists are pessimistic that political leaders will take any positive action to compensate for the climatic change, or even to allay its effects. They concede that some of the more spectacular solutions proposed, such as melting the arctic ice cap by covering it with black soot or diverting arctic rivers, might create problems far greater than those they solve. But the scientists see few signs that government leaders anywhere are even prepared to take the simple measures of stockpiling food or of introducing the variables of climatic uncertainty into economic projections of future food supplies. The longer the planners delay, the more difficult will they find it to cope with climatic change once the results become grim reality.

Brace yourself for a bitterly cold winter, as climate change shifts the polar vortex

Scientists have long said global warming will bring extreme weather.

It's coming back.

The polar vortex that shocked the northeast with extremely cold days may bring more bitterly cold winters to North America, according to a new study.

The polar vortex is a massive system of swirling air that usually contains cold air around the North Pole. It has been shifting for decades, researchers found—but it has only recently become a household term, after it was blamed for causing record cold weather affecting some 200 million people in 2014.

RAF rainmakers 'caused 1952 flood'

Unearthed documents suggest experiment triggered torrent that killed 35 in Devon disaster

Special report: silly season

On August 15, 1952, one of the worst flash floods ever to have occurred in Britain swept through the Devon village of Lynmouth. Thirty five people died as a torrent of 90m tons of water and thousands of tons of rock poured off saturated Exmoor and into the village destroying homes, bridges, shops and hotels.

The disaster was officially termed "the hand of God" but new evidence from previously classified government files suggests that a team of international scientists working with the RAF was experimenting with artificial rainmaking in southern Britain in the same week and could possibly be implicated.

Squadron Leader Len Otley, who was working on what was known as Operation Cumulus, has told the BBC that they jokingly referred to the rainmaking exercise as Operation Witch Doctor.

The disaster was officially termed "the hand of God" but new evidence from previously classified government files suggests that a team of international scientists working with the RAF was experimenting with artificial rainmaking in southern Britain in the same week and could possibly be implicated.

Squadron Leader Len Otley, who was working on what was known as Operation Cumulus, has told the BBC that they jokingly referred to the rainmaking exercise as Operation Witch Doctor.

His navigator, Group Captain John Hart, remembers the success of these early experiments: "We flew straight through the top of the cloud, poured dry ice down into the cloud. We flew down to see if any rain came out of the cloud. And it did about 30 minutes later, and we all cheered."

The meteorological office has in the past denied there were any rainmaking experiments conducted before 1955, but a BBC Radio 4 history investigation, to be broadcast tonight, has unearthed documents recently released at the public record office showing that they were going on from 1949 to 1955. RAF logbooks and personnel corroborate the evidence.

Until now, the Ministry of Defence has categorically denied knowledge of any cloud-seeding experiments taking place in the UK during early August 1952. But documents suggest that Operation Cumulus was going on between August 4 and August 15 1952. The scientists were based at Cranfield school of aeronautics and worked in collaboration with the RAF and the MoD's meteorological research flight based at Farnborough. The chemicals were provided by ICI in Billingham.

The machine that made it rain

In the summer of 1913 a huge drought afflicted the country, with the Alentejo being the most affected region. Father Himalaya presents, in July of that year, a paper on the process of making it rain, based on a combined vertical and horizontal action on an air prism caused by the synchronized shot of several cannons. The device he created for this purpose was a multiple cannon, adjustable, which was based on a special polygon and allowed the simultaneous firing of explosives that created a vertical and horizontal clash between the clouds, causing rain. Experiments were carried out in the Serra da Estrela area, on which credible testimonies claim that a few drops of rain fell on those hot summer days!

Regarding the experiments, it was declared unofficially that the results, although conclusive, imposed a high expenditure on explosives. The method was therefore abandoned due to its high cost.

From these experiments, on the use of special cannons to make artificial rain, a rocambolesque story was born, very widespread soon after the Great War of 1914-1918. It's yet another riddle about the life and work of MAG Himalaya. Rumors circulated that the cannon, falsely called "Grosse Bertha" or "Wilhelm Geschütz", would have been made by the Germans from plans stolen from Father Himalaya.

Many authorities on population growth and food supply now fear that the world is close to the brink of a Malthusian disaster. In fact, several ominous developments in recent years have brought us closer to the edge of this abyss.

Climatologists now blame recurring droughts and floods on a global cooling trend that could trigger massive tragedies for mankind.

Population growth in Third World nations is raging unchecked as it continues to outstrip gains in food production. It has been estimated that one-fourth of all the human beings born since the dawn of recorded history are alive today.

The years from 2015 to 2021 were the seven warmest on record. The global annual mean temperature is projected to rise beyond 1.5°C above pre-industrial levels in at least one of the next five years. Global carbon dioxide (CO2) emissions declined by 5.2 per cent in 2020 due to lowered energy demand caused by COVID-19-induced social and economic disruptions. But with the phasing out of COVID-related restrictions, energy-related CO2 emissions for 2021 rose by 6 per cent, reaching their highest level ever. Climate finance provided and mobilized by developed countries totalled \$79.6 billion in 2019, up from \$78.3 billion in 2018. It is estimated that \$1.6 trillion to \$3.8 trillion will be needed each year through 2050 for the world to transition to a low-carbon future and avoid warming exceeding 1.5° About one third of global land areas will suffer at least moderate drought by 2100. The sea level could rise 30 to 60 centimetres by 2100, even if greenhouse gas emissions are sharply reduced and global warming is limited to well below 2°C. About 70 to 90 per cent of warm-water coral reefs will disappear even if the 1.5°C threshold is reached; they would die off completely at the 2°C level. 3 billion to 3.6 billion people live in contexts that are highly vulnerable to climate change. By 2030, an estimated 700 million people will be at risk of displacement by drought alone.

Why is net zero important?

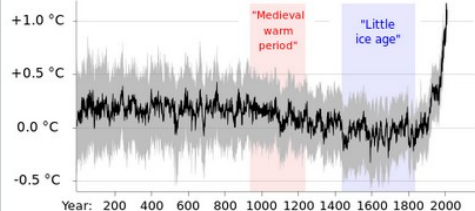

The science shows clearly that in order to avert the worst impacts of climate change and preserve a livable planet, global temperature increase needs to be limited to 1.5°C above pre-industrial levels. Currently, the Earth is already about 1.1°C warmer than it was in the late 1800s, and emissions continue to rise. To keep global warming to no more than 1.5°C – as called for in the [Paris Agreement](#) – emissions need to be reduced by 45% by 2030 and reach net zero by 2050.

The annual mean temperature in the Netherlands has increased by 1.5 °C over the last 100 years. The spring and summer seasons have warmed up the most: by 1.8 °C. The other seasons have warmed less: the average autumn temperature is 1.3 °C higher and the average winter temperature 1.1 °C higher. The average global temperature has also increased during the last century, by about 0.9 °C.

9.3.3 Accelerations in Sea Level Rise

Is there evidence of any "accelerations" (or departures from long-term linear trends) in the rate of sea level rise? From examinations of both composite regional and global curves and individual tide gauge records, there is no convincing evidence of an acceleration in global sea level rise during the twentieth century. For longer periods, however, there is weak evidence for an acceleration over the last 2-3 centuries.

CBS News traveled to the world's northernmost and fastest-warming community of Svalbard, Norway. What scientists are learning there helps Americans understand the changes happening in the United States. As the Arctic warms, it adds to rising sea levels along our coasts and instability in the atmosphere that contributes to our extreme weather events.

U.N. Predicts Disaster if Global Warming Not Checked

PETER JAMES SPIELMAN June 29, 1989

UNITED NATIONS (AP) — A senior U.N. environmental official says entire nations could be wiped off the face of the Earth by rising sea levels if the global warming trend is not reversed by the year 2000.

GRIM FORECAST

A senior environmental official at the United Nations, Noel Brown, says entire nations could be wiped off the face of the earth by rising sea levels if global warming is not reversed by the year 2000. Coastal flooding and crop failures would create an exodus of "eco-refugees," threatening political chaos, said Brown, director of the New York office of the U.N. Environment Program. He said governments have a 10-year window of opportunity to solve the greenhouse effect before it goes beyond human...

Nederland staat al bijna 25 jaar onder water. Niet gemerkt? Gek, we zijn al lang geleden verzopen allemaal.

NOAA says "the absolute global sea level rise is believed to be 1.7-1.8 millimeters/year" — about half what NASA is claiming from their satellite data. Sea level has risen 400 feet in the last 20,000 years — almost all of that before 8,000 years ago. It has nothing to do with humans.

Kletsnatte juli 2023 was aan de koele kant en had normaal aantal zonuren

Normale aantal zonuren

Voor wat het aantal zonuren betreft, komen we op 215 uit tegen 222 normaal gemiddeld over het land. Verliep de eerste helft van de maand nog relatief zonnig, met op 7 juli landelijk 14,6 zonuren, toen het weer in de tweede helft van de maand steeds wisselvalliger werd, kwam de zon meer en meer in de verdrukking. Donderdag 27 juli was zelfs een volledig zonloze dag, iets wat in de zomer niet vaak gebeurt. Ook op 31 juli bleef het op de meeste plaatsen grijs.

De maand begon gematigd

Juli begon dit jaar gematigd. De eerste dagen van de maand lagen de temperaturen onder normaal. Overdag werd het vaak niet warmer dan tussen 18 en 23 graden, de nachten verliepen aangenaam koel met minimumtemperaturen die in het noordoosten plaatsen tot iets beneden 10 graden daalden. Overdag zagen we een afwisseling van stapelwolken en zon en viel af en toe een bui, soms met onweer. Op 4 juli ontwikkelde zich aan één van die buien een **kleine tornado** die op de lijn Beekbergen-Klarenbeek behoorlijke schade aanrichtte. Bomen waaiden om, huizen raakten beschadigd en op de A50 kwam een caravan op zijn kop terecht. Mensen in het spoor van de tornado maakten angstige momenten mee.

Op woensdag 5 juli werd Nederland door de **zwaarste zomerstorm ooit** aangedaan. Een klein lagedrukgebied trok over het land en bracht zijn zuid- en westzijde een klein, maar **agressief windveld** met zich mee. Vooral in **Noord-**

Augustus 2023 was koel en nat en had normaal aantal zonuren

Begon de zomer van 2023 nog met een recordwarme en -zonnige juni maand, na een tegenvallende juli maand volgde ook een teleurstellende augustus. De gemiddelde temperatuur was in De Bilt met 17,6 graden drie tienden van een graad lager dan de gebruikelijke 17,9 graden. Verder viel er met gemiddeld 123 millimeter duidelijk meer regen dan normaal en scheen de zon landelijk met 209 uur het gebruikelijke aantal uren.

Onderkoelingsverschijnselen

Ook op 16 en 17 juli waaide het flink, aan zee werd af en toe een windkracht 8 gehaald. Nu en dan vielen buien en op 17 juli gingen die hier en daar weer met **fiks onweer en plaatselijk ook hagel** gepaard. Tijdens de week waarin de Nijmeegse 4Daagse werd gehouden, wisselden wolken en de zon elkaar af. Nu en dan viel een bui, maar er waren ook langdurige droge perioden. In de nachten daalde de temperatuur af en toe tot beneden 10 graden. Sommige deelnemers aan de 4Daagse hadden er bij de start op de laatste dag, vrijdag 21 juli zelfs zoveel last van dat ze met onderkoelingsverschijnselen te maken kregen. In Eelde daalde het kwik toen tot 7,0 graden in de nacht, in de omgeving van Nijmegen was het 9 graden. Overdag kwam het kwik van noord naar zuid vaak tussen 20 en 24 graden uit.

Na een windrijk weekend met een paar buien en op zondag 23 juli ook een tijdje regen begon de laatste, ook zeer wisselvallige week van juli. Op 24 juli trokken een koufront, een trog en nog een front over het land met in de nacht in het zuiden hier en daar al grote neerslaghoeveelheden. In het zuidoosten van Brabant viel hier en daar meer dan 40 millimeter. Overdag kwamen er verspreid fikse buien met onweer en hagel achteraan. Ook toen liepen de totalen hier en daar flink op. Bladel kwam tot 44 millimeter.

Ook het oceaanwater is warmer dan ooit. Copernicus zegt dat de temperatuur van het oppervlaktewater is gestegen tot 20,96 graden. Daarmee is het record van 20,95 graden uit maart 2016 verbroken.

De hoeveelheid leugens in deze paar zinnen is geweldig. Petje af.

Er is waarschijnlijk nog een andere plek die Nederland heet, want dit gaat zeker niet over het land waar ik woon.

The Netherlands warming much faster than rest of world

Until now, it was expected that the Netherlands would warm at about the same rate as the world average. After all, the Netherlands is situated at mid-latitudes and affected by both land and sea climates. However, the Netherlands has warmed more than twice as much as the rest of the world since 1950 (Oldenborgh et al., 2003; 2009). This more rapid warming is probably not due to natural variations, but to the fact that land masses warm more quickly than oceans. In addition, the Netherlands has - as have other parts of Western Europe - been affected by more westerly and south-westerly winds in the late winter and early spring, reduced cloud cover, rising North Sea temperatures and an increase in the amount of solar radiation (due to cleaner air) in the spring and summer (PBL 2012).

Title: Weather Modification Using Carbon Black

Type Effort: S&T

Proposed by: Phillips Laboratory (AFMC), Geophysics Directorate

Capability Sought and Uses to Which it Could be Put:

4.1 Increase Precipitation:

- 4.1.1 Muddy dirt roads to decrease tractability.
- 4.1.2 Flood fields and small rivers.
- 4.1.3 Decrease troop comfort level.
- 4.1.4 Decrease tractability by snow or freezing rain when the terrain is dry.

4.2 Decrease Precipitation:

- 4.2.1 Dry out roads/fields for improved tractability.
- 4.2.2 Deny fresh water to troops in semi-dry regions.

4.3 Increase Cirrus Cloud Cover:

- 4.3.1 Deny visual satellite or high altitude reconnaissance.
- 4.3.2 Decrease light level for night-time operations.

4.4 Dissipate Fog:

- 4.4.1 Uncover targets for visual aids.
- 4.4.2 Provide visual inspection of damage.
- 4.4.3 Provide visual reconnaissance.
- 4.4.4 Open airfields for landing/recovery.

Blokkeren Van De Zon

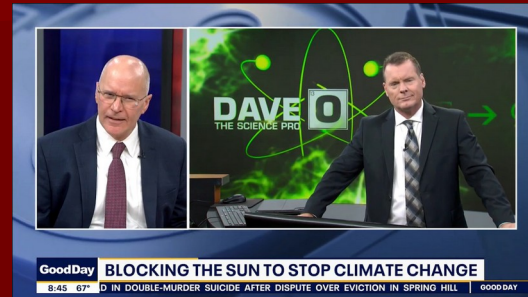

The Zohar in Moslem and Christian Spain by Ariel Bension, 1932, p.203 & 164

" And I was told to look down into the Third Palace of Hell, but I could hardly see anything, so deep were the shadows that lay upon it. And little by little, I began to distinguish the wretched forms of those writhing there. I saw those who have used their tongues wickedly in order to provoke riots, murders, wars and bloodshed. And I saw the Great Serpent that lies coiled at the bottom of this pit. His scales are made up of the lies that are spoken on earth. Every lie adds another scale to his hide, and he grows constantly in order to make room for all the lies that cover him.

R. Simlai expounded: What is meant by, *Woe unto you, that desire the day of the Lord!* to what end is it for you? the day of the Lord is darkness, and not light.¹⁰ This may be compared to a cock and a bat who were hopefully waiting for the light [i.e., dawn]. The cock said to the bat, 'I look forward to the light, because I have sight; but of what use is the light to thee?'¹¹ [99a] And thus a *Min*¹² said to R. Abbahu: 'When will the Messiah come?' He replied, 'When darkness covers those people.'¹³ 'You curse me,' he exclaimed. He retorted, 'It is but a verse: *For, behold, the darkness shall cover the earth, and gross darkness the people: but the Lord shall shine upon thee, and his glory shall be seen upon thee*'¹⁴

WOULD YOU CARE TO MAKE A GUESS?

All right---I think it was an ad hoc committee, at the cabinet level, or near it. It had to be. I suppose they gave the organizational job--making arrangements, paying the bills, and so on---to somebody from the State or Defense of the National Security Council. Only one of us was in touch with Washington, and I wasn't the one. But I can tell you that very, very few people knew about us....For instance, there was the Ackley Committee. It was set up after we were. If you read their report---the same old tune---economic reconversion, turning sword plants into plowshare factories...I think you'll wonder if even the President knew about our Group. The Ackley Committee certainly didn't.

p. 51

Nevertheless, an effective political substitute for war would require "alternate enemies," some of which might seem equally farfetched in the context of the current war system. It may be, for instance, that gross pollution of the environment can eventually replace the possibility of mass destruction by nuclear weapons as the principal apparent threat to the survival of the species. Poisoning of the air, and of the principal sources of food and water supply, is already well advanced, and at first glance would seem promising in this respect; it constitutes a threat that can be dealt with only through social organization and political power. But from present indications it will be a generation to a generation and a half before environmental pollution, however severe, will be sufficiently menacing, on a global scale, to offer a possible basis for a solution.

It is true that the rate of pollution could be increased selectively for this purpose; in fact, the mere modifying of existing programs for the deterrence of pollution could speed up the process enough to make the threat credible much sooner. But the pollution problem has been so widely publicized in recent years that it seems highly improbable that a program of deliberate environmental poisoning could be implemented in a politically acceptable manner.

p. 9

Shalom

p. 53 & 54

In this respect, the possible enemies noted earlier would be insufficient. One exception might be the environmental-pollution model, if the danger to society it posed was genuinely imminent. The fictive models would have to carry the weight of extraordinary conviction, underscored with a not inconsiderable actual sacrifice of life; the construction of an up-to-date mythological or

religious structure for this purpose would present difficulties in our era, but must certainly be considered.

SUBSTITUTES FOR THE FUNCTIONS OF WAR: MODELS

The following substitute institutions, among others, have been proposed for consideration as replacements for the nonmilitary functions of war. That they may not have been originally set forth for that purpose does not preclude or invalidate their possible application here.

ECONOMIC. a) A comprehensive social-welfare program, directed toward maximum improvement of general conditions of human life. b) A giant open-end space research program, aimed at unreachable targets. c) A permanent, ritualized, ultra-elaborate disarmament inspection system, and variants of such a system.

POLITICAL a) An omnipresent, virtually omnipotent international police force. b) An established and recognized extraterrestrial menace. c) Massive global environmental pollution. d) Fictitious alternate enemies.

SOCIOLOGICAL: CONTROL FUNCTION. a) Programs generally derived from the Peace Corps model. b) A modern, sophisticated form of slavery.

MOTIVATIONAL FUNCTION. a) Intensified environmental pollution. b) New religions or other mythologies. c) Socially oriented blood games. d) Combination forms.

ECOLOGICAL. A comprehensive program of applied eugenics.

CULTURAL. No replacement institution offered. *SCIENTIFIC.* The secondary requirements of the space research, social welfare, and / or eugenics programs.

Australian government whistleblower blows the lid off the renewable energy scam.

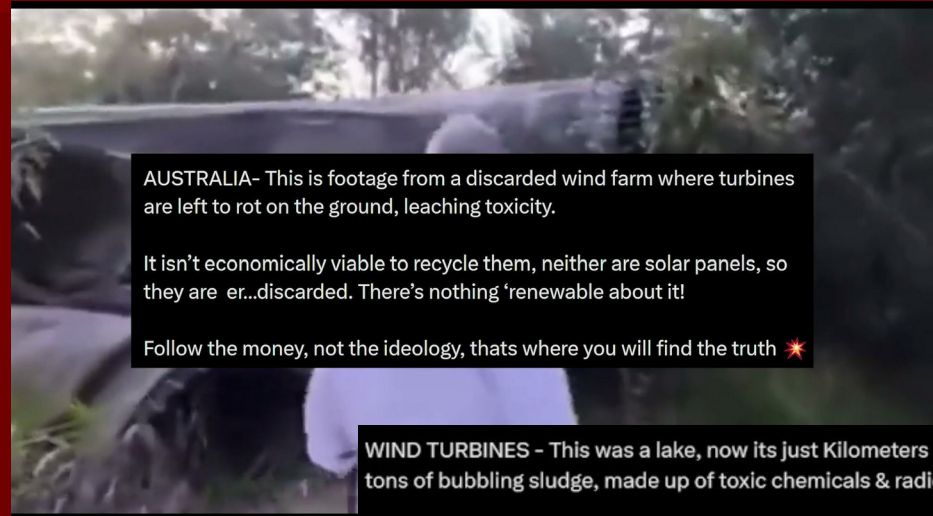

"[Wind turbines need] coal fired power in order to turn... So there's absolutely nothing about them that works, apart from reaming [\$600,000 - \$900,000, per turbine] out of the Australian economy, and it's going offshore."

This coming winter, remember: Your energy bills have skyrocketed in order to subsidise wind turbines that don't even work, as part of the Net Zero agenda to deindustrialise (and thereby impoverish) the West.

IMAGINARY CHANGES OF CLIMATE.

(*Pall Mall Gazette.*)

THREE consecutive years of drought, while they have stimulated the inventive resources of practical agriculturists, have had the natural effect of calling forth a plentiful crop of speculation from weather prophets, and projectors, and half-instructed meteorologists, and all the philosophic tribe of Laputa in general, to whom the periodical press now affords such fatal facilities. We have often noticed that in the tabular statements of those compilers of weather records who write to the *Times*, useful and welcome as their communications are, every season is sure to be "extraordinary," almost every month one of the driest or wettest, or windiest, coldest or hottest, ever known. Much observation, which ought to correct a tendency to exaggerate, seems in some minds to have rather a tendency to increase it. And many

Climatic Change Through the Ages

BY RICHARD JOEL RUSSELL¹

IT WILL be news to many people that man, during his geologically brief existence on earth, has never known a "normal" climate. We are now at the tail end of an ice age and living in a period of crustal and climatic violence as great as any the earth has known. This is why we have to think so much about the weather. Such periods of revolution have occurred briefly several times in the history of the earth. Between them have been the far longer periods of crustal peace and a genial climatic uniformity—the "normal" times of the geologist. Here is the story.

94 • *Yearbook of Agriculture, 1941*

If the atmosphere had a perpetual cloud layer, a great deal of solar radiation would be reflected back to space, and consequently the amount of energy available to the earth's surface in the form of heat would be diminished. A cloud blanket, however, would also cut off a good deal of terrestrial radiation, tending to conserve such heat as might exist beneath it. Temperature ranges between day and night, one season and another, and higher and lower latitudes would be

Virus Hoax

In Kabbalah zijn engelen en demonen hetzelfde. Het begon allemaal met Difteria....

The Zohar in Moslem and Christian Spain by Ariel Bension, 1932, P. 201: Difteria

“ On the fourth step I saw the angel of Diphtheria, who was created at the crescent moon. He is present at the death of little children, when he appears to them in the form of a woman who clasps their throat and gently strangles them. The souls of these children are brought to this Palace and the angel takes care of them and nourishes them with light, fills them with joy, purges them of all bitterness, and brings them at last into the presence of the King of Kings. And there, on Sabbath days and on the days of the New Moon, they receive the blessings of the Fathers. When God sees these little ones, His heart is stirred with pity towards all mankind. And I saw the children, who had been saved from leading a wicked life, basking in the joys of purity and love.

decreasing light (See Table subjoined) The “shells,” *Qliphoth*, are the demons, in whom again is a form of the Sephiroth, distorted and averse. This great dragon which is here described is evidently identical with the leviathan of Job. He is the executor of judgment, the centripetal force, the old serpent ever seeking to penetrate into Paradise, finally, in a more *erotic* sense, he is Satan and the devil, the accusing one. In the Sepher Yetzirah, a most important qabalistical book, he is called *Theh*, *TnLI*, the dragon. Now, by Gematria, *TnLI* = $400 + 30 + 10 = 440$, and

dat demonen bestaan....

Ijstijd = Ziekten & Honger

Mensen waren vaker ziek in de ijstijd, 1400 - 1850. Er was weinig zonlicht en weinig voedsel. Als we uit de ijstijd komen nemen de ziektes af. Heeft niets met demonen of 'medicijnen' te maken maar met de zon. Als de zon schijnt zijn minder mensen ziek dan wanneer het bewolkt en koud is. Ook de voedselproductie heeft zon nodig, zonder zon geen voedsel.

De kinderziektes nemen af naarmate er minder kinderslavernij is en kinderen minder geslagen worden onder het mom van 'opvoeding'.

Mazelen Demon

Over de hysterie over denkbeeldige, nog nooit aangetoonde, “virussen” is het volgende boek op internet te lezen: ‘Virus Mania’. Hoe gek dit wellicht ook klinkt maar tot op de dag van vandaag is er nog steeds geen beWys geleverd dat er ooit een “virus” in een mens, dier of zelfs maar de lucht heeft bestaan. In de 19de eeuw (1868), voor de uitvinding van de elektronen-microscop (1938), kwam Louis Pasteur met het waanidee dat er kleine onzichtbare nano-organismen bestaan die mensen en dieren “ziek” maken. Al waren er toen al echte Wyssenheit-ers die deze fantasie direct wisten te ontmantelen, Pasteur begon onmiddellijk met het samenvoegen van allerlei vergif en deze toe te dienen aan dieren om “ziekten” als gevolg van deze onzichtbare “virussen” te voorkomen. Dit heeft tot de dood van duizenden dieren geleid. Dit “succes” heeft geleid tot vaccinatie-programma’s voor mensen en dieren. Tegen de tijd dat de elektronen-microscop werd uitgevonden, en wereldwijd in gebruik (1943), was een miljarden industrie al in gang gezet en niemand heeft ooit nog een poging gedaan te beWyssen dat al deze onzichtbare nano-organismen, “virussen”, ook in Realis bestaan. De fantasie overleeft dus voort en geeft de farmaceutische industrie een excuus om honderden miljarden dollar per jaar te verdienen met het vergiften van baby’s en kinderen.

“Dat wat algemeen bekend is hoeft niet bewezen te worden”.

Germaanse SeeleWysheit voor Lijf op Erde in Paix en Liberteit, Anima Diets©, 2020, p. 221 & 222

In Duitsland heeft een zeer belangrijke rechtszaak gelopen over het mazelen “virus”. Stefan Lanka, een micro-bioloog, ontdekte virussen (ik vermoed dat dit een soort microzyma’s zijn die hij ongelukkigerwijs virussen is gaan noemen) in zee algen en was in staat deze te isoleren, vermenigvuldigen en fotograferen: dit is de standaard om te beWyssen dat organismen bestaan. Hij heeft vastgesteld dat er in een glas oceaan Waeter miljoenen virussen/microzyma’s zitten die niets vernietigends doen maar juist essentieel zijn voor een gezond ecosysteem in de oceaan. Vervolgens is hij jaren bezig geweest om van de “wetenschappers” het beWys van “virussen”, waartegen gevaccineerd wordt, te verkrijgen. Geen van deze zogenaamde “experts” kon hem beWys leveren van het bestaan van deze “virussen”.

Vervolgens heeft hij een beloning uitgelooft voor iemand die beWys kon leveren voor het bestaan van één van deze “virussen” waartegen gevaccineerd wordt, maakte niet uit welke. Een “virus-expert” stuurt hem wat volgens hem “bewijs” is voor het mazelen “virus”. Lanka weigert hem de beloning te geven want het is geen beWys volgens hem. De “virus-expert” gaat naar de rechter in Duitsland en er volgt een rechtszaak. In de eerste rechtszaak wordt Lanka geboden de beloning uit te betalen. Lanka gaat in hoger beroep. Deze rechters komen tot de conclusie dat inderdaad de “virus-expert” geen beWys heeft geleverd voor het bestaan van het mazelen “virus”. De “virus-expert” is niet gelukkig en overtuigd van zijn gelijk en gaat in hoger beroep. Het komt voor de hoogste rechtbank. Het hoogste gerechtshof in Duitsland heeft vervolgens de uitspraak gedaan dat er **geen** beWys geleverd is voor het bestaan van het mazelen “virus”.

Germ-Theorie

Tot op de dag van vandaag heeft nog niemand een “virus” waar je zogenaamd “ziek” van wordt ooit geïsoleerd, vermenigvuldigd en gefotografeerd, de Wyssenheit's methode om het bestaan te beWyssen. Dit betekent dat “virussen” nog net zo'n fantasie zijn als toen Louis Pasteur ze in de 19e eeuw uit zijn duim zoog, om een lucratieve vaccinatie business te kunnen starten.

Het is weer interessant hoe we aan het woord komen: 'Germ-theorie'. Germ is hier ziekte-kiemen, een woord dat niet bestaat omdat ziekten niet bestaan. Germ (D) is de afkorting van germinal = maart, maand van de kieming. Germaan komt ook van het woord Germ, en alle andere woorden zijn hier aan gerelateerd:

Germana = zuster, volle eigen zus
Germanus = broeder, volle eigen broer
Germen = afstammeling, nakomeling
Germinus = afstammeling, nakomeling

Met andere woorden, het woord dat eerst over de Creatie van nieuw Lijf ging, germineren (ontkiemen), van de Natuur en de Germanen is nu de oorzaak van (dodelijke) “ziekten” geworden.

Germaanse SeeleWysheit voor Lijf
op Erde in Paix en Liberteit, Anima
Diets©, 2020, p. 223 & 224

De bacteriën waar je zogenaamd “ziek” van wordt, worden door je eigen lichaam geproduceerd en zijn actief als het lichaam moet heilen. Deze met antibiotica om zeep helpen zorgt er dus voor dat je lichaam niet meer kan heilen. Het doden van tuberculose-bacteriën bijvoorbeeld, zorgt ervoor dat tumoren niet meer opgeruimd worden, met alle gevolgen van dien. Over welke bacteriën in je lichaam jouw Lijf mogelijk maken kun je de boeken van Dr. Hamer lezen. Bacteriën zijn je grootste vrienden, zonder deze vrienden is Lijf niet mogelijk. Als je nog steeds per se wilt geloven dat je “ziek” kunt worden en mensen kunt besmetten met een “ziekte” afkomstig van bacteriën en “virussen”, dan leg me dit even uit:

Hoe kan het dat in Afrika waar niemand zijn handen wast met zeep, ze geen toiletpapier gebruiken, ze met hun handen eten en het piërgeld zo smerig is dat het van ellende uit elkaar valt en je regelmatig thuis met plakband het weer aan elkaar moet plakken, de snelst groeiende populatie van de wereld woont? Er zou niemand meer op dat continent moeten rondlopen. Sterker nog de wereldpopulatie zou duizenden jaren geleden al uitgeroeid zijn. Niet alleen gaven de eerste bewoners elkaar een hand, ze hadden ook nog allemaal seks met elkaar!!!! Hoe komen we anders aan die miljarden mensen op de Erde? Leg maar uit.

Immuun-Systeem

10.2.1 De mythe van het "immuun-systeem"

Zoals je nu wel begrijpt is er niet zoiets als een "immuun-systeem" dat vijanden van buitenaf moet bevechten. Er zijn geen vijanden van buitenaf, er valt niets te bevechten. De bacteriën in je lichaam zijn niet deel van het "immuun-systeem", zoals de mythe gaat. Een deel van de bacteriën zijn verantwoordelijk voor de afbraak van voedsel, opbouw van structuren en de opname van nutriënten in de cellen, een ander deel is verantwoordelijk voor het opruimen van tumoren en "afval" nadat het conflict is opgelost en zijn dus onderdeel van het heilenproces. Wat de anti-lichamen doen is iets heel anders dan wordt verkondigd. Mensen die ze niet aanmaken vallen niet dood neer als ze "ziek" zijn omdat ze geen functionerend "immuun-systeem" zouden hebben. Ze hebben dus een heel andere functie.

Het zou kunnen dat ze, net als witte bloedcellen, geproduceerd worden om het afval zo snel mogelijk uit het lichaam te kunnen verwijderen. Dode lichaamscellen worden ontbonden door bacteriën en kunnen dan toxinen, vergif, produceren omdat er anorganisch materiaal in is opgeslagen, dat uiteraard zo snel mogelijk verwijderd moet worden. Verhoogde waarden van anti-lichamen, witte bloedcellen en bacteriën worden dan dus vastgesteld in je bloed. Betekent niet dat je "ziek" bent, maar dat er grote schoonmaak gehouden wordt om het afval zo spoedig mogelijk het lichaam uit te krijgen. Als er veel opgeruimd moet worden kun je ook koorts, een verhoogde Waeter-"frequentie", krijgen om het proces te versnellen.

Wat de medische "wetenschap" vervolgens doet is mensen allerlei chemische troep laten slikken die al deze processen stop zet. Dat leidt er toe dat al het afval (vergif als gevolg van ontbinding) in het lichaam achterblijft. Nu wordt je dus vergiftigd door het afval plus de chemicaliën die je toegediend hebt gekregen. Vervolgens krijg je wat de medische "wetenschap" complicaties of bijwerkingen noemt. De symptomen als gevolg van het ontbindingsproces worden dan weer "behandeld" met nog meer chemicaliën wat weer voorkomt dat het lichaam de troep kan opruimen. Uiteindelijk kan dit tot de dood leiden van iemand die alleen maar "griep" had, een onschuldige simpele opruimactie na een periode van stress (OnVeilichheit). En zo wordt "griep" ineens een "dodelijke ziekte". Weer een excuus om iedereen met vergif te injecteren om te voorkomen dat ze "ziek" worden van deze "dodelijke ziekte". Vaccineren met vergif om het niet bestaande "immuun-systeem" te activeren tegen niet bestaande "virussen". Pure magie.

Germaanse SeeleWysheit voor Lijf op

Dat je na een vaccinatie anti-lichamen gaat produceren om het vergif zo snel mogelijk weer uit je lichaam te verwijderen, klinkt een stuk logischer dan: - *Als je anti-lichamen in je lichaam hebt, heb je een "virus" dat je "ziek" maakt. Je moet dus vaccineren om anti-lichamen aan te maken om je te beschermen tegen dat "virus".*

De Waerheit is altijd logisch. Leugens bevatten altijd een hele hoop magisch denken.

Bas & Emily

Papa vertelt:

"Nou kinderen, als er plotseling iets gebeurt waar je heel erg van schrikt, slaat dat in als 'een donderslag bij heldere hemel'. Dat noemen we een biologische schok. Als een bliksemschicht die inslaat in de hersenen verschijnt onmiddellijk een afdruk, die lijkt op een schietschijf, in de hersenen. Het zelfde zie je als je een steen in een vijver gooit. Daar kunnen we een foto van maken. Dat is het bewijs dat de onverwachte gebeurtenis de verandering in het lichaam in gang zet.

De plaats van de schietschijf in de hersenen vertelt ons welke soort schok het was en waar in het lichaam nu een verandering plaatsvindt. De schok, dat is de oorzaak, heeft dokter Hamer vernoemd naar zijn zoon Dirk en het gevolg, de schietschijf, noemde hij een Hamerse Haard. Zo heeft hij de oorsprong van zijn ontdekking vastgelegd in de wetenschap.

p. 5 & 6

En nooit vergeten kinderen: Alles wat er in je lichaam gebeurt na een biologische schok is altijd een zinvol programma. Het is allemaal om er voor te zorgen dat je in leven blijft, zodat je de tijd krijgt om het probleem op te lossen.

Hoe vervelend, pijnlijk of verschrikkelijk het soms ook voelt, je lichaam doet alleen maar goede dingen. Ook als je het misschien niet direct begrijpt, het is altijd voor jouw bestwil. Er is niets in jouw lichaam dat jou kwaad wil doen."

De Germaanse Wereld van Bas & Emily, Alex Fryas Bern©, 2023

Die schietschijf wordt in de medische 'wetenschap' een tumor genoemd. Gevaarlijke operaties worden uitgevoerd om die te verwijderen. Er is niets te verwijderen, het is een magnetisch veld. Hoeveel doden kunnen we tellen voor deze zwendel?

Bas & Emily

“Ja Bas, Pharmakia betekent tovenarij, magie en hekserij. Farmacologie is met tover pilletjes, drankjes, injecties en toverformules mensen bevrijden van alle demonen die mensen ziek maken. Het is een soort demonen uitdrijving met behulp van toverdrankjes, pilletjes, zalfjes en injecties.”

Mama gaat verder:

“Meneer Pasteur behoorde tot een groep van hele rijke mensen die in de Kabbalah geloven. Samen hebben ze besloten dat alle mensen in de wereld ook in de Kabbalah moeten geloven. Daarom hebben ze scholen, universiteiten en ziekenhuizen opgezet waarin iedereen onderwezen wordt in de Kabbalah religie. Vanaf die tijd wordt iedereen verteld dat je ziek wordt van kwade demonen en je magie en tovenarij nodig hebt om beter te worden. Ze vertellen aan iedereen dat als je niet doet wat zij zeggen je dood gaat.”

“Alle dokters in de wereld zijn naar de universiteit geweest waar ze geneeskunde studeren. Deze studie is gebaseerd op de boeken die de mensen die in Kabbalah geloven geschreven hebben. Die boeken zijn de Torah, Talmoed, Zohar, Bijbel en Koran. Daarin staat geschreven dat de joodse god mensen ziek maakt en met behulp van magie ze weer beter maakt. Vroeger zeiden mensen ook altijd dat je ziek werd omdat god je strafte voor iets dat je verkeerd gedaan had. Omdat mensen niet meer in de god van de bijbel geloven hebben ze god vervangen door demonen. Maar de magie, Pharmakia, is gebleven.”

p. 33 & 34

Emily zegt:

“Denken alle mensen dan dat je dood kunt gaan als je demonen inademt of inslikt? Dan zijn die mensen toch altijd bang?”

Papa:

“Ja, Emily, dat heb je heel goed begrepen. Mensen zijn vreselijk bang voor deze kwaadaardige demonen. En dat is heel erg, dat kun je je niet voorstellen hè? Altijd bang zijn voor andere mensen die je ziek kunnen maken omdat ze demonen bezitten. En bang zijn dat je demonen in je lichaam hebt die ineens een oorlog tegen jouw lichaam kunnen beginnen.”

“En omdat mensen zo vreselijk bang zijn voor die demonen zijn ze bereid om in zich te laten snijden om die zogenaamde demonen eruit te snijden, of die demonen te verbranden met elektrische straling of met behulp van vergif ze te vergifigen.

En dat allemaal omdat ze verteld is dat als ze die demonen niet doden dat de demonen hen zullen doden.

Het is de moderne demonen-uitdrijving. In de bijbel is het Jezus, de Kabbalah Koning die de demonen uitdreef, tegenwoordig hebben we Jezus in een potje of spuit.”

De Germaanse Wereld van Bas & Emily, Alex Fryas Bern©, 2023

Bas & Emily

Emily:

“Maar de waarheid kun je bewijzen, in een fantasie moet je geloven.”

Papa:

“Inderdaad Emily, en als alle mensen dat zouden weten, zouden ze niet meer zo bang zijn. Want niemand heeft ooit een foto kunnen maken van die kwaadaardige demonen. We hebben alleen computer plaatjes. Dokter Hamer heeft laten zien dat je gewoon een foto kunt maken van de oorzaak van ziekten. Dat is de

schietschijf in de hersenen die je met behulp van een CT-scan kunt fotograferen.”

Emily denkt even na en zegt:

“Nou ik vind het toch gek dat als je niet gelooft in kwaadaardige demonen dat je uitgelachen wordt.”

Emily vraagt:

“Wat is Covid dan?”

Papa legt uit:

“De rijke Kabbalah mensen hebben hun eigen taal, dat heet Hebreeuws. Die taal lees je van rechts naar links. Het heet dus eigenlijk Divoc. Divoc in het Hebreeuws betekent Demon. Ze zijn nu al jaren bezig mensen te vertellen dat ze vol zitten met demonen. In de Kabbalah staat geschreven dat alle niet-joden demonen in zich hebben en rond hen hebben. Dat is Covid, en die demonen moeten met behulp van magie, dat is vaccinaties, verdreven worden. Ze willen dat iedereen zich steeds weer test of ze demonen in zich hebben en iedereen moet zich steeds weer volspuiten met toverspul om die demonen te doden. Dat is een religieus ritueel geworden.”

De Germaanse Wereld van Bas & Emily, Alex Fryas Bern©, 2023, p. 36

Bas & Emily

Emily:

"Waarom krijgt iedereen tegelijk griep? En wat heeft dat met Covid te maken?"

Papa:

"Hele goeie vraag Emily. Verkoudheid en griep, dat in 2020 ineens Covid heette, is een grote schoonmaakactie van het lichaam. Dat gaat je lichaam op natuurlijke wijze doen zodra, na de winter, de zon weer gaat schijnen. Door het gebrek aan zonlicht, stress, omdat er weinig lichturen op een dag zijn, en mensen om de stress te verminderen meer troep uit een fabriek eten, hoopt het afval tijdens de winter op. Zodra de zon weer gaat schijnen in februari of maart, gaat het lichaam al dat afval verwijderen. Er wordt grote schoonmaak gehouden. Uit alle gaten, dat is mond, neus, huid en soms ook de darmen wordt al het opgehoopte afval en gif verwijderd. Dat noemen we griep. Als het niet al te erg is, mensen geen koorts hebben, heet het verkoudheid.

Griep krijg je ook na een periode van angst, omdat angst ook tot afval in het lichaam leidt. Als de angst voorbij is gaat het lichaam grote schoonmaak houden. Maar de griepgolf die we elk voorjaar hebben is gewoon de natuurlijke grote schoonmaak die we vooral hier in het noorden hebben. Mensen die in de tropen wonen, waar ze het hele jaar evenveel zonlicht hebben, hebben geen jaarlijkse grote voorjaarsschoonmaak omdat ze het hele jaar genoeg zonlicht hebben om meerdere kleine schoonmaken, verkoudheden, te hebben na periodes van angst of stress. Ook eten die mensen geen of weinig troep dat uit een fabriek komt, dus minder gif om zich van te ontdoen.

De Germaanse Wereld van Bas & Emily, Alex Fryas Bern©, 2023, p. 48 & 49

In 2020 besloten ze om de jaarlijkse voorjaarsschoonmaak Covid te noemen, een zogenaamde demon die de mensheid wilde vermoorden. Daarom was er ook geen griep, verkoudheid of allergie in 2020, elke schoonmaak of allergie werd toegeschreven aan deze demonen.

Vervolgens hebben ze mensen min of meer gedwongen zich vol te spuiten met vergif om deze demonen te doden, wat ze vaccinatie noemen. Deze mensen werden dan weer ziek omdat het lichaam ging ontgiften, grote schoonmaak houden om al dat gif weer uit het lichaam te krijgen, wat dan ook weer Covid genoemd werd. De demonen kregen weer de schuld.

Al die mensen waarvan het lichaam het niet lukt om dat vergif weer kwijt te raken, zijn nu voor de rest van hun leven ziek. Dat heet nu long Covid, weer krijgen de demonen de schuld. Mensen snappen nog steeds niet, dat hoe meer vergif je in je lichaam stopt hoe ernstiger en langer je ziek wordt. Op een gegeven moment kan het lichaam het niet meer aan en dan gaan ze dood."

De jood heeft nooit de wens gehad om niet-Joden te genezen. Zijn doel is om hun gezondheid te ruïneren. De "Joodse Brief van Toledo", een joods document uit 1489, zegt dit openlijk. In dat jaar kregen de joden in Noord-Frankrijk de keuze om te emigreren of zich te laten dopen. De rabbijn van Arles vroeg het geheime joodse opperbestuur in Constantinopel om advies. Deze antwoordde:

Geliefde broeders in Mozes!

Wij hebben uw brief ontvangen, waarin u melding maakt van de ontberingen en tegenslagen die u moet ondergaan... De Grote Raad en de rabbijnen geven u de volgende raad:

U meldt dat de koning van Frankrijk u wil dwingen christen te worden:

"Sluit je aan bij de kerk, maar houd de wet van Mozes in je hart."

Je meldt dat je gedwongen wordt om je bezit op te geven: Leid je kinderen op tot kooplieden zodat je de christenen geleidelijk van hun bezittingen kunt beroven.

Je meldt dat je leven in gevaar is: "Laat je kinderen artsen en apothekers worden, zodat ze de christenen van het **leven** kunnen beroven..."

De prins van de joden van Constantinopel, 21 Kislew 1489

De jood deed wat deze brief beval. En niet alleen in Frankrijk. Zijn kinderen werden overal ter wereld apotheker en arts "zodat ze christenen van het leven konden beroven". Voor degenen die nog steeds niet overtuigd zijn door deze joodse brief, wenden we ons tot de wet in de Schulchan aruch, die de zaak zo duidelijk stelt als men maar kan wensen. Zoals bevestigd tijdens het Stürmer Talmoedproces in 1931, staat er in Jore de' a 158,1:

"Men mag niet direct die niet-Joden doden met wie we niet in oorlog zijn. Het is echter verboden hen te redden wanneer zij de dood nabij zijn..... Daarom mag men hen niet genezen, zelfs niet voor geld... Het is ook toegestaan om een medicijn (medisch gif) op niet-Joden te testen om te zien of het heilzaam of schadelijk is."

Hier een deel van een briefwisseling over de toepassing van de Germaanse Geneeskunde voor joden en niet-joden:

.... In den 80er Jahren habe ich in Frankreich unendlich viele Seminare gehalten, auf denen manchmal bis zu 80 % Rabbiner als Teilnehmer anwesend waren und eifrig die Neue Medizin lernten. 1986 traf mich allerdings der Schlag, als mir und meinem Freund Antoine Graf D'Oncieu der Oberrabbiner in Paris, Herr Denoun verriet, er habe, genau wie alle Rabbiner der Welt, ein Schreiben vom obersten Rabbiner, Menachem Schneerson, erhalten, des Inhalts, alle Rabbiner sollten dafür sorgen, daß alle Juden nach der Neuen Medizin therapiert würden. Man habe sie geprüft und sie sei richtig. (P.335)

Allerdings solle das heimlich geschehen und sei nicht für die Nicht-Israelis gedacht. Mein Schreiben, das ich daraufhin an Herrn Menachem Schneerson geschrieben habe, füge ich bei. Seine Antwort erhielt ich 1989 in Form eines Attentatsversuches durch seinen Stellvertreter. Kürzlich bekannte ein israelischer Arzt, Dr. Rosenstock aus Argentinien, auf einem meiner Seminare vor 33 Teilnehmern und vor laufender Kamera, daß seit 15 bis 20 Jahren weltweit alle Israelis - heimlich! und unter falschen Etiketten - nach der Neuen Medizin therapiert würden, mit allerbestem Erfolg. Er nannte sogar inzwischen ein Krankenhaus in Israel, wo unter falscher Flagge - den Namen Hamer, so schrieb er, kenne man dort nicht - Neue Medizin für Israelis praktiziert werde.

Nun zu dem Problem, Herr Spiegel: Wie es scheint, haben die Israelis seit 15 bis 20 Jahren weltweit und heimlich (siehe News Nr. 45 vom 09.11.2000) Neue Medizin praktiziert. Von den Israelis konnten 98 % damit überleben. Die Medien aber, die quasi zu 100 % Ihren Freunden von der B'nai B'rith, also auch Israelis, gehören, propagieren seit 20 Jahren für Nicht-Israelis Chemo, Bestrahlung und Morphium. 98% der erkrankten Nicht-Israelis, sprich 2 Milliarden Menschen, scheinen auf diese Art durch die von Ihren Freunden zu verantwortende Erkenntnisunterdrückung der Neuen Medizin auf die grausigste Art und Weise zu Tode geschächet worden zu sein („Halo-Schächt“!). Wie gesagt, Herr Spiegel, ich bin das Gegenteil von einem

“ Even as the sun seeks for the moon, so does the Holy One seek for the Schechina and finds her not, for the sins of man separate them. The worlds of the emanation and of the creation lie above the Throne of God. There, it is impossible to distinguish between the Holy One and the Schechina, because there all things are one. But below the throne, in the worlds of formation and of action, the distinction begins. As each sin which man commits brings a demon to life, these demons are the barrier that stands between the Holy One and the Schechina. The question is sometimes asked why God does not exterminate these demons that come between Him and the Schechina. But we have seen that the desire of the Supreme Thought was that, when man had drawn unto himself sin and death—by eating of the forbidden fruit—he was to be allowed Free Will, so that he might, little by little, elevate the lower worlds to the status of the upper. But Free Will would be impossible without the demoniac urge to evil. Hence, the Schechina prefers to suffer the pains of the invasion of demons, rather than to weaken the chances for

eternal happiness given to man. The Holy King is beauty, while the Queen, the Schechina, is the perpetual activity of the divine emanations permeating all existence. The King is the sun, while the Queen is the moon, her light being the true reflection of that of the sun.

“ The Matrona is the heavenly Esther, who fights against the evil designs of the Demon, even as Esther fought against those of Haman. The Demon tries to exterminate the human race, but the Matrona is full of compassion for her people and intercedes for them with the Heavenly King.

En daarom is een loopneus niet gewoon het water in de lucht dat condenseert in je neus, omdat het daar warmer is, nee, het is een demon die je aanvalt en uitgeroeid moet worden.

Piquerism is a paraphilic disorder characterized by the urge to stab or pierce others with sharp objects. It is a rare disorder, and there is no clear evidence that it is more common in sociopaths than in the general population. However, some experts believe that the lack of empathy and remorse that is characteristic of sociopathy may make people with this disorder more likely to engage in harmful or dangerous behavior.

There have been a few cases of sociopaths who have been diagnosed with piquerism. In one case, a man with a history of violence and criminal behavior was found to have a fascination with knives and other sharp objects. He would often stab himself or others with these objects, and he would also collect them. In another case, a woman with a history of sociopathy was found to have a habit of stabbing people with pins and needles. She would often do this without provocation, and she would often show no remorse for her actions.

It is important to note that not all people with piquerism are sociopaths. Some people with this disorder may have other mental health conditions, such as schizophrenia or borderline personality disorder. It is also important to note that piquerism is not always a violent disorder. Some people with this disorder may only experience urges to stab or pierce others, and they may never act on these urges.

Jack the Ripper was, zoals we allemaal weten, een Poolse jood.

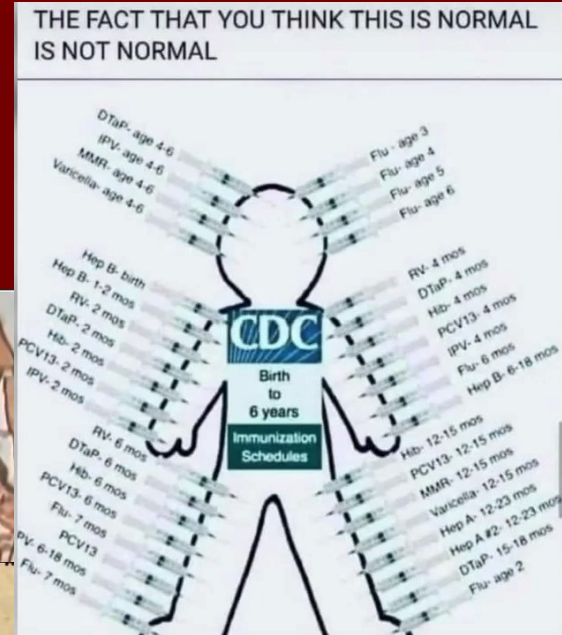

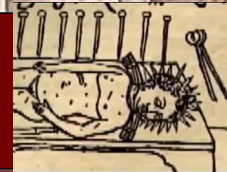

Piquerisme is een joodse psychiatrische aandoening. Vroeger was dit gebruik illegaal. Het heet joodse rituele marteling/moord. Het was 1 van de vaakst voorkomende redenen dat de joden in de afgelopen paar honderd jaar 109 keer uit landen en gebieden zijn verbannen. Telkens nadat weer een klein kind vol gaten dood gevonden werd.

Piquerism

Piquerisme is gelegaliseerd door Pasteur en heet nu vaccinatie. Babies en kleine kinderen volprikken met chemisch afval.

De Corona-vaccinatie was een wereldwijde piquerisme operatie waarbij miljarden mensen vrijwillig zich lieten ritueel martelen.

Vaccinatie komt van het woord koe, koeieneren, het degraderen/ vernederen van mensen met behulp van rituele marteling.

Breaking News: Unexplained Surge in Excess Mortality Post-Vaccination... Iceland Leads Global Inquiry

Recent reports from Iceland have highlighted a notable increase in excess mortality, characterized by a series of sudden, unexplained deaths.

This trend appears to be consistent with observations in various other nations with high vaccination rates. A graph illustrating this phenomenon shows a distinct correlation between the onset of excess mortality in Iceland and the timeline of the COVID-19 vaccine rollout, a pattern that diverges from the mortality rates observed during the height of the pandemic itself.

Iceland has become the first country to officially recognize and address this issue of sudden deaths.

COVID Vaccine May Cause Long-Term Heart Damage, Even in People With No Symptoms

Japanese researchers said they found evidence of long-term heart damage in people who received COVID-19 vaccines — including in asymptomatic patients. The findings contradict claims by the Centers for Disease Control and Prevention that most people who develop myocarditis following COVID-19 vaccines experience symptoms but “feel better quickly.”

De rol van de overheid bij (langdurige) klachten na vaccinatie is beperkt.

Is de producent verantwoordelijk voor een bepaalde bijwerking van een vaccin? Dan kan de overheid alleen onder specifieke en strikte voorwaarden de aansprakelijkheid van de producent overnemen. Deze voorwaarden zijn geregeld in contracten tussen overheid en producenten.

Als u de overheid aansprakelijk stelt voor de gevolgen van de bijwerkingen van het vaccin, dan zal per geval volgens de wet beoordeeld worden of de overheid daarvoor wel aansprakelijk kan zijn.

Subject: additional info on the vaccine

The Covid-19 Vaccine

To be able to understand the following explanation it is necessary to read the book Germaanse SeeleWysheit from Anima Diets on [archive.org](#). It will explain how your body functions and the role of DNA and RNA. If you have understood the explanation then you will know that all man-made structures have a centrifugal frequency, nature has a centripetal frequency. Therefore a man-made, modified, structure can never change your DNA, it can only flat-line, called silencing in the literature, or destroy your DNA. All frequencies in your body are generated by microzymas, those are the target for the coming vaccines. It will be an attempt to flat-line (silence)/kill your microzymas and replace them with centrifugal bacteria/ antibodies/ enzymes/hormones etc. When your microzymas are dead your DNA will not function anymore, with that your soul is extinguished included there in is your common sense and conscience. Your brain will not be able to think or memorise anything. This is not about changing your DNA it is about flat-lining the frequency that operates your DNA: Silencing your Soul. It works also the other way around. Before they can link you to a centrifugal AI they have to get rid of the centripetal frequencies as they can flat-line the centrifugal ones. We are going to discuss the Pfizer/Moderna(Mode(fied)RNA)/Biontech mRNA vaccine.

After investigating the patents related to the vaccine I have come to the following conclusions:

As can be read in the book there is no such thing as a virus, no RNA in a virus, and no possibility for RNA to reproduce. A virus cannot enter a cell and reproduce because a human cell has no replication possibilities. The only cells that can replicate are the ones in the initial state of an embryo. It will only do that several times and then cells will be formed out of stem cells. A liver cell for example does not replicate itself otherwise we would all die with a 50 kilo liver.....

As there is no such thing as a virus there is no viral RNA that can be modified. Human RNA is a transcript of a past experience and will be added to your DNA as a record file. It does not initiate any response from the body.

According to the patent the term m(essenger)RNA refers to any polynucleotide which encodes a polypeptide (or polypeptide in other patents) of interest and which is capable of being translated to produce the encoded polypeptide (polypeptide) of interest in vitro, in vivo, ex vivo WO2013151668A2. It consists of a coding region and a poly-A tail. This is a laboratory made chain of nucleotides, it is dead material. The packages, in total 5, are synthetic proteins/antibodies/lipids etc (called coding region) attached to a PCR (Polymerase Chain Reaction, a copy machine that makes 1000 copies according to the patent) called poly-A tail, in a capsule of a plastic nano lipid(PEG) (US20180153822A1, US20200163878A1) so your body cannot decompose it and it can enter through the blood-brain-barrier into the brain and blood-blood-barrier into the fetus, called stealth nanoparticles. (Vaccine nanotechnology patent EP2217269B1) In the article on [sciencedirect.com](#): Trans resveratrol loaded DSPE-PEG 2000 coated liposomes: An evidence for prolonged systemic circulation and passive brain targeting it says: "The brain distribution of PEGylated liposomes was found to be 9 times higher than that of a pristine RSV solution". The lipid, cholesterol and sucrose in the vaccine solution are the feed for the PCR. That is why you need to have a second shot after 3 weeks, it needs feed for the PCR.

The patent on this vaccine is not new it was applied for in 2015: EP3718565A1, Respiratory virus vaccines (First vaccine was patent EP2281579A1, 2009 then US9597380B2, 2013, then EP3718565A1, 2016, containing PEG-DMG 2000, catatonic lipid, DSPC and cholesterol) and was part of the patent: Methods of responding to a biothreat EP2791364A4. The vaccine has already been tested and adjusted under the name Zika virus vaccine. (fi Article: 'Modified mRNA vaccines protect against Zika virus infection'. That is where that hoax comes from they needed tax payer money to do research on this vaccine. In 2019 they got stuck with the trials as there were no more Zika patients and then a miracle happened and the Covid-19 virus came on to the scene to get renewed funding.

We know that all virus tests are in reality antibody tests, the virus RNA is in reality an antibody, a protein. Which means that when they say they want to eradicate the virus they mean antibodies, grown-up microzymas.

The plan is to inject people with biosensors, biochips and nanobots. The problem they have is that the body will decompose (by bacteria) and remove (by antibodies) foreign objects. Before they can start injecting people with foreign objects they will have to shut down the ability of the body to decompose and remove these objects. They have already lots of experience with that by experimenting on people with bone-marrow transplantations and organ transplant patients. Patent WO2009127230A1, modified (m)RNA for suppressing or avoiding an immunostimulatory response and immunosuppressive composition. Patent US20200109420A1, reduction or elimination of immune response to non-intravenous, eg subcutaneously administered therapeutic proteins. WO2020227510A1, Polynucleotides for disrupting immune cell activity and methods of use thereof. AU2016253972B2, Nucleoside modified RNA for inducing an adaptive immune response. WO2013143555A1, Rna formulation for immunotherapy.

So when they refer to sterilising people with this vaccine they do not mean infertility, they mean sterilising as in a operating room, remove all bacteria. People have already started for a whole year now sterilising themselves with anti-bacterial soap, gels and sprays. The salts and sucrose in the vaccine are there to kill all bacteria in your body dedicated to decomposing toxins and dead/damaged cells and food. Not only will this lead to a build up of toxins and dead material in your body (toxic shock syndrome) this will also lead to malnutrition. That is why there is so much talk about the HIV-virus being in the Covid virus. All BS but it will give them the chance to ramp up the HIV vaccine and introduce more social distancing, well no sex allowed anymore..... unless you have a sterilising condom or what ever they are planning to bring into the vagina's of women to prevent conception. In Australia they shifted from vaccine because everybody ended up testing positive for HIV, which means people were still capable of making antibodies to remove the vaccine garbage, which of course is not what the intention of the vaccine is.

Another thing they need is thicker blood. These foreign objects are going to be heavy, so in thin blood they will all float to your feet. In order for them to go to your brain the blood needs to be thicker. That would be the reason for the no alcohol anymore policy of the past year. Alcohol is a blood thinner, which is contra-productive. Also you cannot have the vaccine when you are taking a blood-thinner. There are a lot of patents on clotting factors and also EPO, synthetic red blood cells (RBCs), Patent US8710200B2, for storing and transporting centrifugal energy. Lots of people have been wearing masks 24/7. These people have been breathing in air with a higher pressure than normal. The higher the air pressure the less RBCs the body produces. They have artificially induced a chronic anaemia. So it is possible that one of the mRNA packages contains fake RBCs (according to the dutch leaflet the vaccine is going to introduce bloodcells) lowering the amount of natural RBCs. BMG (Bill & Melinda Gates) have spend lots of money in malaria research which could suggest that in the future they are going to introduce the malaria parasite (grows in the liver than enters the RBCs and every few hours blows up all these RBCs) effectively removing all natural RBCs leaving the fake RBCs in tact. You will know if this is happening when your urine is black.

The 5 packages, the proteins with build-in PCR are what? One I assume are these fake RBCs. Then there is one for the clotting factor. Two are to suppress the creation of antibodies. What we have seen in the research and patents is that they have found out how to introduce antibodies from animals, which of course are having the duty to decompose and remove human tissue, can be used to create a what they call auto-immune reaction. Of course your body does not decompose itself, this is a lie, it is the antibodies from animals they inject in our bloodstream that will decompose human tissue and with that our own antibodies. Normally we would never have animal tissue in our body as it will be dismantled in our digestive track and ends up in the toilet. However in all vaccines are animal antibodies which decompose specific human organs or tissue or cells. In addition we have the Global Fund for HIV, Malaria and TBC of BMG. We addressed the first two. The latter is about TBC bacteria, which, you know when you have read the book, are the bacteria that remove the tumour cells after the conflict has been resolved. They have been manipulating this mechanism of removing tumour cells and the result of that could be that they found a way to decompose normal cells. (Fifth package is further on)

We have now several reactions induced. First sterilisation which leads to toxic levels going up in your body and malnutrition, called AIDS, which will be blamed on the HIV-virus with the need for more vaccines and the "vitamins", as described in the book, the GMO bacteria, replacing the natural bacteria. (New York Post: Some Covid-19 vaccines could increase risk of HIV, researchers warn, Oct 20, 2020, [BGR.com/2019/12/03](https://www.bgr.com/2019/12/03/hiv-vaccines-may-be-ready-by-2021): HIV vaccines may be ready by 2021, the East African: Ugandan volunteers in phase III of HIV vaccine efficacy trials, Dec 21, 2020) The salts are going to give you diarrhea increasing the problems and most probably a high blood pressure. Secondly, if you are lucky you will get what is called the flu, the mechanism of your body to remove the toxins from your body. If you are unlucky all these fake antibodies could induce a cytokine storm, a massive attack on your organs leading to total-organ-failure and death. (Treatment using cytokine encoding RNA, WO2019154985A1, also look up G-CSF) On the internet they have already planted lots of articles blaming this on the Covid virus. Thirdly all this garbage will lead to birth defects, with baby's who have lots of water in their head replacing a brain, as you know your body needs lots of water to remove toxins and garbage. All these birth defects are going to be blamed on Zika. According to the experts the stocks of the Zika vaccine are going to rise between now and 2027. Also Moderna has just started with human trials. But Zika was gone, right? If you missed it: Zika used to be transmitted by a mosquito but can now also be transmitted through sex.

- The excess mortality from malignant neoplasms in 2021 & 2022 are highly statistically significant with Z-scores of 5.6 & 10, respectively. These are very strong signals.
- These signals are corroborated by similar findings when measuring rise in the fraction of deaths from malignant neoplasms relative to all other deaths with classified causes.

The liver and kidneys are the biggest enemies of these vaccines as they remove toxins from your body. Luckily we can now 3D-print organs which means after they have destroyed your liver and kidneys (Patent US9770463B2, delivery of RNA to different cell types) you can get a 3D-printed fake liver and kidneys which will not remove the garbage from your body. No problem with rejection because your whole system was already shut down, replaced by fake antibodies attacking your own antibodies, neutralising your antibodies they call it.

In short the vaccine is going to sterilise and neutralise your body's capability to remove toxins and foreign objects, so after this they can inject you with what ever they want because your body will not be able anymore to decompose or remove it. Without bacteria/microzymas you cannot repair your body anymore, slowly your body is going to fall apart.

As an addition to all this, the combination of ingredients (DSPC, cholesterol and PEG) with the fifth luciferase mRNA package will enter into a reaction in your body and create a luminescence so they can detect with Patent US20100105035A1 of 2006 Electroluminescent based fluorescence detection device, whether or not you are a sheep following orders or a terrorist who thinks for him/herself. The sheep will light up like a Christmas tree. If you are afraid of needles no problem: \$1.35M for world-first needle-free Zika virus vaccine, Sep 3, 2020, Newsroom.

Everybody who survives the sterilising, neutralising and silencing will be inserted with a biochip. Those 500 million slaves they were planning to keep for oiling the robots for instance. I guess everybody who does not light up like a Christmas tree will be neutralised, sterilised and silenced completely, if you know what I mean.

Further on we know that sunlight creates the pathway in your veins to send information from your DNA throughout your body. We have all been locked up and told not to go outside anymore, diminishing the amount of sunlight, which we are supposed to replace by fake vitamin D. BMG are going to dim the sunlight by spraying ash into the sky, preventing the fake global warming. Which means we are going to depend on factory food. The animals are already infected with Covid 19 so they all have to be killed and we are going to eat laboratory meat. All measures they have taken make absolute sense once you know what the goal is. After all, a centrifugal body, bacteria, antibodies, etc need centrifugal food and light.

We all know that injecting fat and cholesterol in the bloodstream is already potentially deadly as they will block the small bloodvessels in heart, brain and lungs. In addition, cholesterol will change the hormone-levels. Injecting sucrose in the bloodstream is so insane nobody has ever done that before. There is NO mechanism outside the digestive tract to decompose or store it, it cannot enter the cells. This means probably that insulin levels will rise to a deadly level as your body tries to get rid of it, but fails to do so. Somehow I missed the transition of salt, fat, cholesterol and sugar being bad for your health into SFCS are making you more healthy.....

Going back to the bone-marrow transplant guinea pigs, WO2016014794A1: Methods and compositions for modulating nuclease-mediated genome engineering in hematopoietic stem cells. What they all have in common besides ending up at the edge of death, occasionally vomiting because they cannot digest food anymore, they all lose their hair. Is that going to be the hair fashion of the new normal?

"Ja, maar als je een bijsluiter leest ben je een complotdenker." Ik hoor het je zeggen.

Nee, een complotdenker WAS iemand die geloofde dat kinderverkrachtende psychopaten, die vinden dat er 6 miljard mensen teveel op de aarde rondlopen, samenwerken om te voorkomen dat jij ziek bent of dood gaat. De meest krankzinnige complot-theorie ooit verzonnen.

Het woord complotdenker is nu een scheldwoord voor mensen die hun gezond verstand gebruiken. Tegenwoordig is dat een ere-titel die ik met veel trots draag. Complotdenkers zijn een uitstervend soort, er zijn er nog maar weinig van over helaas. Mensen gaan liever dood dan hun gezond verstand te gebruiken en dat is triest.

Het Rwanda-Experiment

The Canadian theology professor Dr. Pierre Gilbert during a lecture in 1995 warned of a coming mandatory vaccine containing liquid crystals that, when exposed to magnetic frequencies, turn vaccine recipients into "zombies."

Pierre Gilbert (1995)

In the biological destruction there are the organized tempests on the magnetic fields,

What will follow is the contamination of the bloodstreams of mankind

creating intentional infections.

This will be enforced via laws that will make vaccination mandatory.

And these vaccines will make possible to control people.

The vaccines will have liquid crystals that will become hosted in the brain cells,

Liquid Crystals in Living Systems

Knowledge of liquid crystals in living systems is in its infancy and it seems safe to predict that the future will see exciting developments in this area. The liquid crystalline state is singularly well fitted to provide complex forms in which organization and lability can be combined to a unique degree. These structures possess variable and fluidity, internal structure, and are well suited to provide complex forms in which organization and lability can be combined to a unique degree. gebruiksvoorwerpen tot aan SMART-luiers. Al deze apparatuur verstuurd een zelfde frequentie bedoeld om de lichaams-"frequentie" dusdanig te veranderen dat er geen SEELE-Verbint meer mogelijk is. Als alles op 5G over gaat met het 'internet-of-things' is het Game-Over voor ons allemaal.

We hebben gezien dat als er geen SEELE-Verbint meer is het Back-Up Systeem het commando overneemt. Dan krijgen we een tweedeling in de samenleving. Een deel dat slachtoffer wordt, mensen die passief huilend in een hoekje zitten, en een deel dat dader wordt, agressieve mensen die moordend en verkrachtend rondlopen. Om het agressieve deel te ontlopen kan de slachtoffer groep dadelijk vluchten naar de SMART-steden, waar ze voor de rest van hun overleven slaven van de AI zullen zijn. De rest moordt elkaar gewoon uit. Ik heb het vermoeden dat dit het scenario is dat ons te wachten staat. Ik denk ook dat ze dit scenario al eerder uitgeprobeerd hebben, in Rwanda in 1994. Waar mensen ineens veranderde in psychopaten.

Op 6 april 1994 werd het vliegtuig van de president neergeschoten, vervolgens, alsof er een knop werd omgezet, veranderde mensen in krankzinnige moordenaars en verkrachters. Mannen gingen ineens hun eigen familieleden, vrienden en burens verkrachten en letterlijk in stukken hakken. De halve bevolking

werd krankzinnig. Het was niet alleen dit, vergeet niet de holocaust die plaatsvond in Rwanda. Tutsi's die kerken invluchten omdat ze daar zogenaamd veilig zouden zijn, werden door de nonnen en pastoren/priesters opgesloten en vervolgens levend verbrand. Het Yuddhis offer-ritueel. Het "bevrijdingsleger", getraind in Oeganda en Tanzania, kwam vervolgens binnenvallen en ging zich precies zo gedragen. Na drie maanden was het ineens voorbij. Een aantal jaren later was ik in Rwanda en mensen waren nog steeds in shock toestand. Het waren de aardigste mensen die ik ooit ben tegengekomen en in de zes maanden dat ik daar rondliep, na ook in de gevangenis deze "onmensen" ontmoet te hebben, die gewone vriendelijke mannen bleken te zijn, heb ik mij verbaasd afgevraagd hoe ze deze mensen ooit zover hebben gekregen om van de een op de andere dag ineens in psychopaten te veranderen om vervolgens weer "normaal" te worden. Dat het alleen maar propaganda was, zoals de officiële versie gaat, geloof ik geen moment. Je wordt geen psychopaat van propaganda alleen, de SEELE-Verbint moet volledig verbroken worden om dit gedrag te kunnen vertonen. Dus wat was het wel?

Verder terug in de tijd hebben we voorbeelden wat drugs en propaganda kunnen doen, denk aan de psychopaten uit de Sovjet Unie en andere geallieerden tijdens de Tweede Wereldoorlog. De Amerikanen & Co en het Sovjet leger gingen verkrachtend (miljoenen vrouwen zijn verkracht door Amerikanen, in Duitsland alleen al 1,5 miljoen, maar ook massa's Nederlandse en Franse vrouwen werden in naam van de "bevrijding" verkracht) en moordend door Europa, maar dat was nog niets bij het Sovjet leger dat verder uit het oosten kwam. Die kwamen Duitsland binnen en hebben miljoenen vrouwen aan deuren en bomen gespijkerd waarna ze door 50 tot 100 mannen verkracht werden. Bij vrouwen bedoel ik meisjes van acht jaar oud tot bejaarde vrouwen van 80. Alle mannen die ze tegen kwamen werden aan stukken gehakt en ogen uitgestoken.

Was het alleen drugs en haat die deze mannen tot krankzinnige psychopaten omtoverde of was er ook nog iets anders dat dit gedrag veroorzaakte? Opmerkelijk is dat, anders dan je verteld is, de Duitsers dit gedrag nooit hebben vertoond. De enkeling die dit gedrag ging vertonen werd door de Duitsers zelf opgehangen of dood geschoten omdat dit gedrag niet getolereerd werd in het Duitse leger. De Duitsers waren alleen bezig hun land te verdedigen tegen deze krankzinnige psychopaten die hun land, en van plan waren heel Europa te overspoelen, binnen kwamen. Als je deze krankzinnigheid met eigen ogen wilt zien kijk naar de documentaire 'Hellstorm', of lees het boek. Op YouTube uiteraard door Nederland gecensureerd maar wellicht op Bitchute nog wel te vinden, anders is de DVD te vinden op RenegadeTribune.com.

Crucifying German Women

February 17, 2019February 18, 2019 renegade 70 Comments
The Testimony of Captain Hermann Sommer

A number of troop companies reported to the fortress commander [at Königsberg] the discovery of several mounds of corpses situated quite close to one another. The commander, General Lasch, ordered a commission to investigate these discoveries. The commission reported that many similar piles of bodies were strewn throughout the area; but in two cases there were virtual mountains of bodies made up of ca. 3,000 women, girls, children and only a few men.

A special commission of doctors, forensic investigators and foreign journalists was formed to establish identities and the circumstances of the deaths. The work was made difficult by the fact that the Russians had poured gasoline on the mounds of bodies and attempted to burn them. Nevertheless many of the dead were photographed. The pictures graphically showed the often savage circumstances under which these people had been murdered. On the basis of these pictures and of reports made by the forensics team, the conclusion was drawn that the victims had been beaten and stabbed; in very few cases were persons killed by a shot to the base of the skull. A large number of bodies had the breasts cut off, the genitals stabbed through and were disemboweled. The testimonies of witnesses, who had survived the raping and other physical abuse by the Russians, along with the photographs, are on file in my department. They were used by the security officers and officials of the criminal police to interrogate prisoners of war brought back from the Eastern Front; and to question civilians in the attempt to establish the identities of the victims.

I made my own observations when I was sent to Metgethen on official business on February 27, 1945. Just on the outskirts of town near the first railway crossing, I turned my motorcycle into a gravel driveway so that I could look over a building and see if it was suitable for service use. Behind the building I suddenly came upon the bodies of 12 women and six children. Most of the children had been killed by a blow to the head with a blunt instrument, some had numerous bayonet wounds in their tiny bodies. The women, mostly between 40 and 60 years of age, had been killed with knife or bayonet. All of them bore the unmistakable black-and-blue marks of beatings.

After the first Soviet blockade had been completely smashed, I was ordered on February 28, 1945, to report to a unit of the 4th Army. On my way, I stopped for a rest in the village of Gross Heydekrug. I had arrived just as medics and civilians were burying some 35 mostly female bodies. Here again I saw the gruesome mistreatment practiced by the Russians, all shown to me by indignant soldiers and civilians. Most of the victims were again women. A corporal told me of a church where a girl and two soldiers had been found. The girl had been actually crucified on the altar cross, the two soldiers strung up on either side.

Het Rwanda-Experiment

Het grote verschil tussen deze extreme haat en Rwanda is dat, hoewel de vernietigingsdrang hetzelfde is, in Rwanda werden, in tegenstelling tot de andere vernietigingsoorlogen, mensen aangezet hun eigen familieleden in stukken te hakken. Dat is een heel groot verschil. Vreemden vermoorden, of je eigen

familie, vrienden en burens. Daarom blijf ik erbij dat er in Rwanda nog iets anders gaande was. Mensen waren zo ver van de Realis af, dat alles en iedereen de vijand was. Een volledige verbreking van de SEELE-Verbint, dat we ook al bij dieren hebben gezien, namelijk de moeder vogels die haar kinderen in de steek laat als gevolg van 5G. Ik ben er van overtuigd dat Rwanda een Yuddhis experiment was om te zien of ze hun natte droom bewaarheid konden krijgen, en dat is iedereen van hun SEELE-Verbint te verbreken en een hel op Erde teweegbrengen, waarbij iedereen de vijand van iedereen wordt en we onszelf gaan vernietigen terwijl zij in euforie/orgasme toekijken. De genocide in Rwanda was van begin tot einde een experiment georganiseerd door de Panis/Yuddhis, en dat is waarom alle elementen van hun destructieve natte dromen aanwezig waren, van het levend verbranden van mensen, via martelen, verkrachten en in stukken hakken van mensen tot het open snijden van baarmoeders om de babies eruit te halen. En dat is waarom de VN er voor zorgden dat iedereen die het probeerde te voorkomen uitgeschakeld werd.

We weten nu dat Anima Diets gelijk had, het was een joods experiment, om te testen hoe ze het voor elkaar zouden kunnen krijgen dat Amalek zichzelf uitmoord zodat zij hun handen niet vuil hoeven te maken en in extase kunnen toekijken hoe Amalek vernietigd wordt.

Farther into the village I saw civilian bodies lying everywhere, as far as the highway crossing to Powayen. While most of the men had been shot in the base of the skull, the women were completely naked, raped and then killed in the most brutal way with stab wounds or rifle butt blows to the head. At the highway crossing to Powayen stood a Soviet tank which had been dragging the now-dead bodies of four naked women behind it. A commission was already there taking photographs of the scene.

BEMNIFOSBUVIR

Seeking to combat COVID-19 with an oral RNA viral polymerase inhibitor.

Leveraging our purine nucleotide prodrug discovery capabilities, we are developing bemnifosbuvir (AT-527), an orally administered, direct-acting antiviral drug candidate for the treatment of patients with COVID-19. Bemnifosbuvir is designed to inhibit viral replication by impairing viral RNA polymerase, a key component in the replication machinery of enveloped positive single-stranded RNA viruses, such as human coronaviruses.

"(The rapid tests) are not reliable for diagnosis of COVID-19," the memo stated.

"As such COVID-19 RAT testing can no longer be used to direct clinical care or infection prevention and control measures, and must be discontinued immediately in Interior Health affiliated emergency rooms, hospitals, long-term care facilities (and) outpatient settings."

“ELIMINATE THE SOUL WITH MEDICINE”

theorganizeearth More than a hundred years ago, Rudolf Steiner wrote the following:

"In the future, we will eliminate the soul with medicine. Under the pretext of a 'healthy point of view', there will be a vaccine by which the human body will be treated as soon as possible directly at birth, so that the human being cannot develop the thought of the existence of soul and Spirit.

To materialistic doctors, will be entrusted the task of removing the soul of humanity. As today, people are vaccinated against this disease or that disease, so in the future, children will be vaccinated with a substance that can be produced precisely in such a way that people, thanks to this vaccination, will be immune to being subjected to the "madness" of spiritual life.

He would be extremely smart, but he would not develop a conscience, and that is the true goal of some materialistic circles.

With such a vaccine, you can easily make the etheric body loose in the physical body.

Once the etheric body is detached, the relationship between the universe and the etheric body would become extremely unstable, and man would become an automaton, for the physical body of man must be polished on this Earth by spiritual will.

So, the vaccine becomes a kind of arymanique force; man can no longer get rid of a given materialistic feeling. He becomes materialistic of constitution and can no longer rise to the spiritual."

And this seems to be the final revolution."

Germanen - Germs

The Germ Theory of infectious contagious disease is convenient because it provides what every simplistic view of a problem seeks before all else: a culprit, an invisible hare for the hounds to chase in their costly research labs, universities, hospitals, and drug factories. The fact that the hare can never be caught is the perfect guarantee that their race will never finish, their demands for funding will never cease, and their ability to generate profits for the drug and chemical corporations will continue to grow.

From The Blood and its Third Anatomical Element
by Antoinette Bechamp GJC

Als je al die bacteriën doodt, waar mensen druk mee bezig zijn met antibiotica en antibacteriële zeep en gels, kan het lichaam ten eerste niet helen, er worden geen nieuwe cellen en weefsel meer gemaakt, ten tweede kan het voedsel niet meer afgebroken worden en opgenomen door de cellen, dat noemen ze AIDS, zogenaamd veroorzaakt door een demon, en ten derde kan het afval niet meer worden afgebroken. Dat betekent dat al het afval ophoopt in je lichaam en je dus aan vergiftiging overlijdt.

Elke vaccinatie, voor welke demon dan ook, bevat antibacteriële ingrediënten om het lichaam te stoppen om zichzelf te helen en te ontgiften plus een heleboel vergif, als zware metalen, formaldehyde en anti-vries. Met elke vaccinatie krijg je een ophoping van vergif in het lichaam en een verminderde capaciteit om weefsel dat beschadigd wordt door al dat vergif, te vervangen door nieuw weefsel. Mensen worden dus steeds zieker maar ook minder oud.

Het betekent ook, en dat zien we nu na de massale covid-vaccinatie campagne, dat tumoren niet meer kunnen worden afgebroken. Het wordt nu gezegd dat de vaccinaties turbo-kanker veroorzaken. Dat is niet zo. Normaal gesproken lossen mensen heel snel hun conflicten op waardoor de tumoren weer afgebroken worden, zonder dat mensen ooit wisten dat ze er 1 hadden. Echter het wordt nu duidelijk dat de TBC-bacteriën, die voor de afbraak van tumoren verantwoordelijk zijn, het doelwit zijn geweest van het vergif. De tumoren worden niet meer afgebroken.

Conversely, COVID-19 vaccines could impact the gut microbiota, enhancing the growth of some microbes but suppressing the growth of many others[17]. This bidirectional interaction between gut microbiota and COVID-19 vaccine is highly reminiscent of that between gut microbiota and anticancer immunotherapy. Oct 28, 2022

Can it be that the hostility toward Christian, Jewish and Muslim belief in some kind of catastrophic end to the world as we know it is nothing more than an expression of prejudice? While it is true that almost all religious end-times predictions are mere speculation, the latest being the September 23 "prophecy," that doesn't mean belief in a doomsday is false. The very same is true of science's repeated predictions of a "natural" doomsday. Though leading scientists have wrongly predicted impending global catastrophes of various kinds, their hastiness doesn't mean that mass extinction for one reason or another is a false scenario altogether.

The three monotheistic religions have different versions of the End Times, but all revolve around a messianic figure. Jews and Christians believe that this divinely-empowered person will transform our planet by means of global war. This end-times war will trigger "natural" catastrophes like earthquakes, asteroids and deadly pandemics.

Contemporary scientific and pseudo-scientific end-times scenarios are surprisingly similar, and just as horrific. John's Book of Revelation speaks of extraordinary celestial events that will devastate our planet. It is quite possible that "something like a huge mountain, all ablaze ... thrown into the sea," speaks of an asteroid. Scientists today are so concerned with asteroids hitting earth that they have convinced governments to launch special defense programs against them. Movies like Armageddon (1998) and the 2013 meteor that hit the Russian town of Chelyabinsk have caused a great many to believe that a disastrous asteroid is likely to hit earth within the next 100 years.

John's Apocalypse speaks of heatwaves that scorch earth's vegetation:

"A third of the earth was burned up, a third of the trees were burned up, and all the green grass was burned up."

Epidemiologist Larry Brilliant stated presciently on CNN just a few years ago that "in the next 20 years, 30 years, there will be a pandemic." John's Apocalypse speaks of some kind of pandemic that kills millions:

In 2019 begon de grijze golf in de hele westerse wereld. Daardoor gaan er steeds meer bejaarden dood. Er zijn er meer. Dat is waarom de hoax in 2019 begon.

generationjourney.nl/vergrijzing-feiten-cijfers/

Vergrijzing feiten en cijfers

Volgens het Centraal Bureau voor Statistiek (CBS) is sinds 2019 meer dan de helft van de volwassenen vijftig jaar of ouder zijn. Dit komt neer op zeven miljoen Nederlanders. Deze vergrijzing blijft nog lang lang doorgroeien: pas na 2040 wordt weer een krimp van 50-plussers verwacht.

Hoeveel sterfgevallen zijn er per week?

Per week overlijden gemiddeld 2 900 mensen. Maar in de winter overlijden doorgaans meer mensen dan in de zomer. Hogere sterfte in de winter valt vaak samen met een periode van griep en/of kou. Zo was er begin 2018 sprake van een uitzonderlijk lange periode van vooral griep. In die periode was de sterfte uitzonderlijk hoog met in week 10 (5 tot en met 11 maart) bijna 4 100 sterfgevallen.

Onder ouderen zijn relatief meer sterfgevallen in de winter. In de eerste vijftien weken van 2019 lag het aantal sterfgevallen onder 80-plussers gemiddeld 10 procent hoger dan in een gemiddelde week in 2019. Voor de mensen jonger dan 80 jaar was dat 3 procent. In de overige jaargetijden overlijden juist minder oudere mensen dan gemiddeld, behalve in de zomer als er sprake is van een hittegolf.

Ter voorbereiding is in de afgelopen 10 jaren flink bezuinigd op zorgpersoneel en werden ziekenhuizen gesloten. Dat zou automatisch tot een crisis in de zorg leiden. Geen demon voor nodig.

Na 3 maanden Covid-hysterie beginnen bejaarden dood te gaan als gevolg vd covid-'behandeling', dat duurde 6 weken. Toen was het voorbij.

Personeelstekort in de zorg: 2019 is het jaar van de waarheid

De noodklok werd geluid in 2018: het personeelstekort in de zorg groeit en brengt de kwaliteit ervan in gevaar. Volgens zorgmedewerkers gebeurt dat nu al. De overheid kwam met een plan van actie. Kunnen we in 2019 op genoeg bedden en goede zorg rekenen?

“Het ziekenhuis doet z'n best niet om ons te houden”

Rianne Piets, ziekenhuisverpleegkundige

Wat ziekenhuispersoneel te wachten staat in 2019? Het wordt vooral heel, héél druk, zegt Wouter van der Horst, woordvoerder van de Nederlandse Vereniging van Ziekenhuizen (NVZ), en de vooruitzichten zijn niet best.

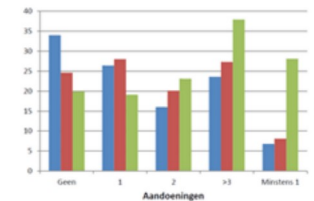

“Het RIVM berekende dat als de groei van patiënten in dit tempo doorgaat, één op de vier mensen een opgeleide zorgwerknemer moet zijn. Dat gaat nooit gebeuren.”

zorgvoorbeter.nl/veranderingen-langdurige-zorg/cijfers-vergrijzing

Toenemende zorgvraag

Met de toename van het aantal ouderen stijgt de zorgvraag. Van de mensen van 65 jaar en ouder heeft 70 procent een chronische ziekte. Van de mensen van 75 jaar en ouder heeft de helft meer dan één chronische ziekte. Van de mensen van 75 jaar en ouder met een chronische ziekte, heeft 63 procent twee of meer chronische ziekten (multimorbiditeit) en 32 procent drie of meer.

Daardoor stijgt het zorgvolume met ongeveer 4 procent per jaar. Naar verwachting zal in 2030 38 procent van de mensen ouder dan 75 jaar meer dan drie aandoeningen hebben.

De grafiek laat zien: hoe ouder, hoe meer aandoeningen.

'Vijftien ziekenhuizen kunnen dicht'

10 juli 2012 19:15
Laatste update: 10 juli 2012 21:07

AMSTERDAM - Vijftien van de ruim honderd ziekenhuizen in Nederland kunnen zonder probleem verdwijnen.

Dat stelt zorgverzekeraar CZ dinsdagavond in het televisieprogramma Altijd Wat.

Ziekenhuizen gaan failliet, overheid waarschuwt voor ernstige gevolgen

De rechtbank heeft donderdagochtend MC IJsselmeerziekenhuizen met vestigingen in Lelystad, Dronten en Emmeloord **failliet verklaard**. Woensdag ging Medisch Centrum Slotervaart eveneens failliet, daar is de afdeling spoedeisende hulp gesloten. De ziekenhuizen waren allemaal van dezelfde commerciële ondernemer Loek Winter. Zorgverzekeraar Zilveren Kruis en andere zorgverzekeraars weigerden nog langer krediet aan de zorgonderneming te verstrekken. Als gevolg van de situatie trekken uitzendbureau's hun uitzendkrachten terug. **Het AD:**

“Inmiddels zijn ook patiënten op de intensive care overgebracht naar andere ziekenhuizen in Amsterdam, is er een patiëntenstop afgekondigd en wordt er alleen nog bij spoed geopereerd. Alleen al deze week zijn dertig maagverkleiningsoperaties afgezegd vanwege gesloten operatiekamers. Ook in de IJsselmeerziekenhuizen worden afdelingen gesloten en alleen bij spoed geopereerd. Zwangere vrouwen en langdurig zieke kinderen worden overgeplaatst naar andere ziekenhuizen. De poliklinische apotheek kan niet alle medicatie meer leveren.”

In Amsterdam kan het wegvallen van een ziekenhuis nog opgevangen worden door andere instellingen maar in Flevoland dreigt een probleem. De overheid sluit niet uit dat er doden vallen, schrijft de Volkskrant:

Burger vreest effect van bezuiniging in de zorg

Carolien Stam

Ruim 85 procent van de burgers heeft grote zorgen over het effect van de bezuinigingen in de zorg en ondersteuning. Mensen vrezen dat vanwege de bezuinigingen en het dreigend tekort aan zorgpersoneel, zij aan hun lot worden overgelaten. Dat blijkt uit een onderzoek van Motivaction.

Tekort aan zorgpersoneel: maar die grijze golf zagen we toch al lang aankomen?

Floor Ligtoet
redacteur

De zorg kampt met grote personeelstekorten. Ook in de ouderen- en thuiszorg is het probleem nijpend. De overheid had dit jaren geleden al kunnen zien aankomen. Maar door eigen beleid zijn de tekorten alleen maar groter geworden. Dat blijkt uit gesprekken die Nieuwsuur voerde met betrokkenen.

Eén oudere op twee werkenden

Maar de vergrijzing moet zijn hoogtepunt nog bereiken. Dat wordt in 2040 verwacht, wanneer ruim een kwart van de Nederlandse bevolking 65 jaar of ouder is, een derde daarvan is dan zelfs ouder dan 80. Tegenover iedere 65-plusser heeft Nederland dan nog maar twee werkenden.

In de hele zorgsector wordt tot 2022 een tekort van 100.000 tot 125.000 personeelsleden verwacht. De tekorten spelen sectorbreed, van ziekenhuiszorg, wijkverpleging, ggz, gehandicaptenzorg tot de ouderenzorg.

Massa-ontslag

Hoe zijn we zover gekomen? In 2012 stelde het kabinet Rutte II zich toen het doel de zorg betaalbaar te houden voor de toekomst. Mensen moesten langer thuisblijven en vooral een beroep doen op de eigen kring voor hulp. De verzorgingshuizen zouden verdwijnen en het verpleeghuis werd een oord waar alleen plek was voor mensen die de meest zware zorg nodig hadden. Er kon zo voor 3,5 miljard aan uitgaven bezuinigd worden.

Het leidde tot massa-ontslagen. 56.000 werknemers stroomden de ouderenzorg uit, blijkt uit cijfers van VWS. De zorg, ooit de stabiele banenmotor van de economie, veranderde in een uiterst onzekere en grillige werkgever. Nieuwe contracten werden tijdelijk, liefst nul-uren. En er vielen tienduizend gedwongen ontslagen.

Grijze golf

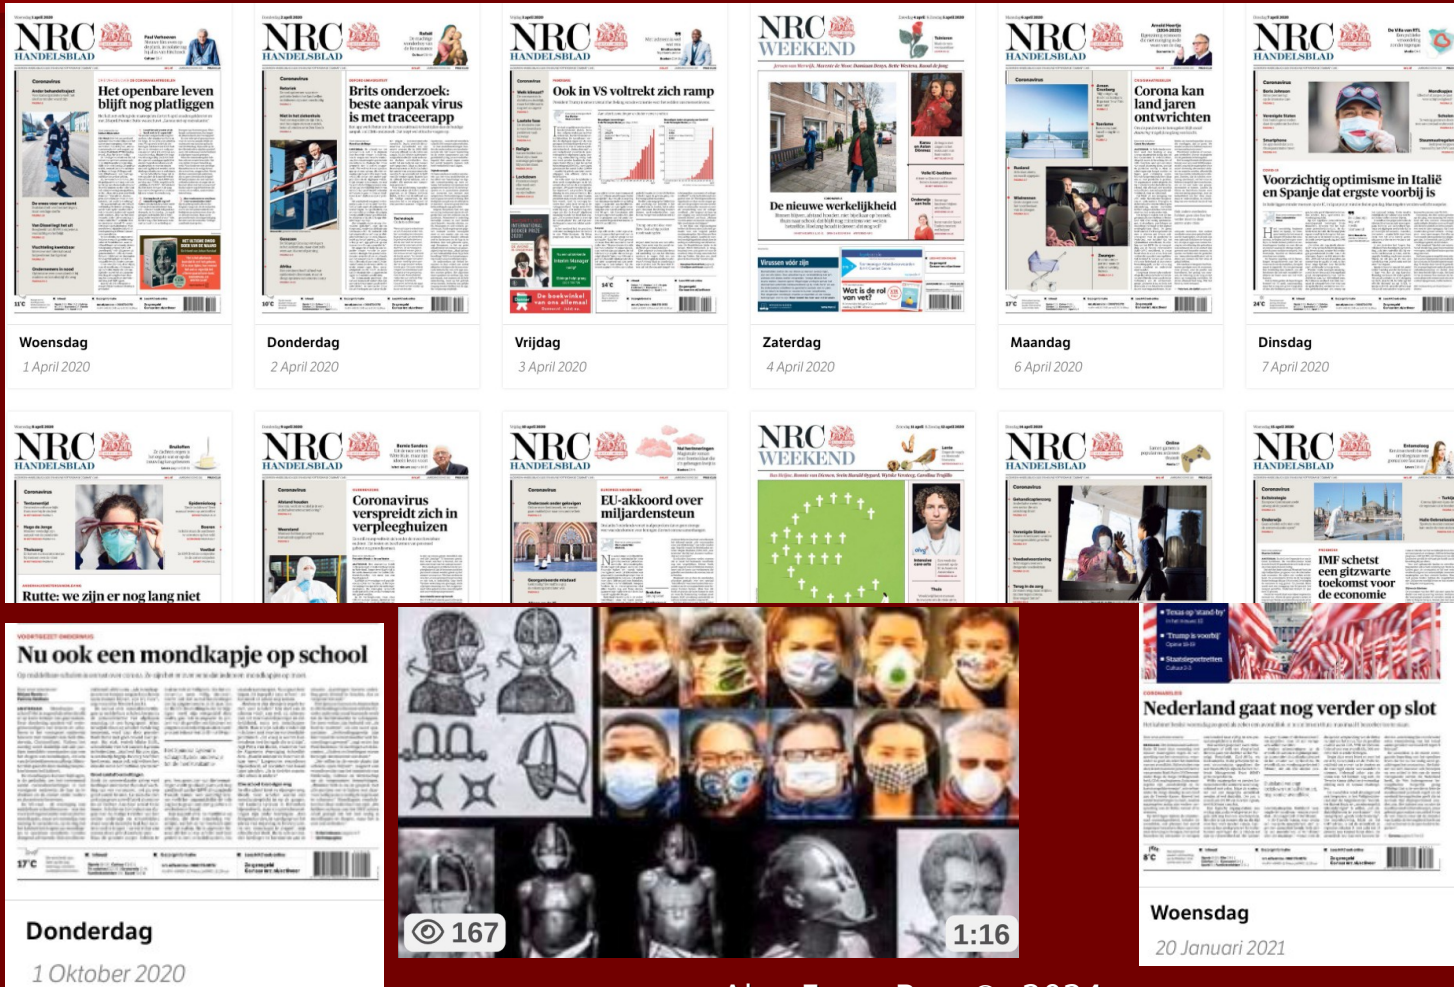

Maar realiseerden deze beleidsmakers toen niet dat er een grijze golf aankwam? Ja, zeker wel, stelt hoogleraar arbeidsmarkt Ton Wilthagen. Net voor de financiële crisis in 2008 begon, had de commissie Bakker al becijferd dat er tot 2020 een half miljoen mensen extra nodig zouden zijn in de zorg.

Staatssecretaris Martin van Rijn (VWS), die tekende voor de hervorming en bezuiniging op de zorg, had in 2001 als ambtenaar zelf al gewaarschuwd voor toekomstige arbeidstekorten in de zorg. Maar de crisis veranderde alles. "En in moeilijke tijden is het goede weten, niet altijd het goede doen", stelt Wilthagen vast. "We moesten per se het braafste jongetje van de klas zijn en aan de begrotingsnorm van Europa voldoen."

Wilthagen: "Het idee was: alles kan bij de mensen thuis en dan hebben we minder personeel nodig. Dat was geen goede aanname, gezien de prognoses."

Er was geen fictieve demon nodig om een probleem in de zorg te krijgen in 2020/2021. Daar hadden de demonen in Den Haag al voor gezorgd.

Op 10 oktober 2018 heeft staatssecretaris Paul Blokhuis de Tweede Kamer geïnformeerd over maatregelen over de griep. De winter van 2017-2018 kenmerkte zich door een langdurige en zware griep epidemie, waarbij ongeveer 900.000 mensen ziek zijn geworden en naar schatting 9.500 mensen meer zijn overleden dan normaal.

World of the Shells or Rinds, the Demons. It contains the actual matter of the planets or spheres (*gill-goolcem*) and what man terms matter. It is the residence of Samā-el, the Prince of Darkness and his legions. In it is our sublunary world, which is subject to matter re-birth and the dissolution of the matter forms but not the destruction of the essential atoms. It has the operative qualities of all the preceding Ten Sephiroth, but much diminished because further removed from the original source, and is merely an extension of their rays or energies to their last degree or point of cessation. The Zohar (ii, 43a), says: For the service of the Angelic World “the Holy, Blessed be He! made Samā-el and his legions, *i. e.*, the World of Action, who are as it were, the clouds to be used (by the Upper Spirits) to ride upon in their descent to the Earth, and serve, as it were, for their horses. Hence it is written: ‘Behold YHVH rideth upon a swift cloud, and shall come into Egypt,’ etc.” (Is. xix, 1.)

A LONG-TERM STRATEGY FOR CLIMATE, NATURE AND ENERGY

Preparing for Disease X

Date	Time
January 17, 2024	11:30-12:15 CET

With fresh warnings from the World Health Organization that an unknown "Disease X" could result in 20 times more fatalities than the coronavirus pandemic, what novel efforts are needed to prepare healthcare systems for the multiple challenges ahead?

This session is linked to the Partnership for Health System Sustainability and Resilience and the Collaborative Surveillance Initiative of the World Economic Forum.

Massahysterie

Massahysterie, ook bekend als collectieve [hysterie](#) of groephysterie, is een fenomeen in de [sociologie](#) en [psychologie](#) waarbij collectieve denkbeelden of dreigingen, zowel echt als fictief, door een groep wordt gestuurd als resultaat van geruchten en angst. Voorbeelden hiervan zijn [ufo's](#), ziekten en jacht op [heksen](#). Massahysterie is van alle tijden. In veel gevallen maakt aandacht van de [media](#) de hysterie erger.^[1]

Een vaak voorkomend type van massahysterie treedt op wanneer een groep mensen denkt te lijden aan dezelfde ziekte of aandoening zonder duidelijke reden. Het wordt ook MPI, Mass Psychogenetic Illness genoemd. Voor de aandoening is geen medische verklaring te vinden, ook al ervaren de slachtoffers wel degelijk lichamelijke klachten. Normale gezonde mensen kunnen worden meegesleurd in deze denkbeelden door de groep. Het is ook niet altijd meteen duidelijk dat het om massahysterie gaat, daarom moeten andere oorzaken eerst worden uitgesloten zoals [koolmonoxidevergiftiging](#) of [voedselvergiftiging](#).^[2]

Een voorbeeld van massahysterie in België was de Coca-cola-crisis in juni 1999. Aanvankelijk werden schoolkinderen ziek na het drinken van flesjes cola, waarvan uit later onderzoek bleek dat deze geen giftige stoffen bevatten. Er bleven echter veel meldingen van slechtruikende en ziekmakende drank volgen, waarop Coca-Cola een deel van hun producten tijdelijk uit de handel nam. Onderzoek van de Hoge Gezondheidsraad toonde aan dat dit om een vorm van massahysterie ging.^[3] In 2022 werden in Vlaanderen zowel tijdens een voetbalmatch als op enkele festivals gevallen van needle spiking gerapporteerd, waarbij jongeren vertelden een prik gevoeld te hebben en nadien onwel werden. Hoewel het fenomeen van needle spiking (drugs ongemerkt toedienen) wel bestaat, werden in deze gevallen echter geen toxische stoffen aangetroffen bij de slachtoffers en vermoed men dat het puur om MPI gaat.^{[4][5]}

De echte paniek bij massahysterie ontstaat doordat een groep mensen het gevoel krijgt de controle over een situatie te verliezen.^[6] Er is vaak sprake van een kettingreactie of [domino-effect](#). In een groep raakt iemand in paniek, waarop de mensen eromheen ook in paniek raken, met onvoorspelbaar gedrag tot gevolg. We nemen sociaal gedrag vaak over, ook in geval van angst en paniek.^[7]

In de massasituatie is de individuele persoon lichtgeloviger en ook vatbaar voor [propaganda](#) en massapsychoses. Dat heeft tot gevolg dat de massa vaak blind achter een leider aanloopt.^[bron?]

Bij sommige [fans](#) slaat hun bewondering voor hun idool om in een obsessie. Deze ongezonde aanbidding kan soms omslaan in massahysterie, waarbij fans massaal aan het krijsen slaan wanneer ze hun idool in levenden lijve zien en zelfs flauwvallen. Bekende voorbeelden hiervan zijn de [Beatlemania](#) in de jaren 60 en de taferelen rond de Nederlandse groep [Doe Maar](#) in de jaren 80.

40.000 tot 80.000 doden in Nederland verwacht door ...

 <https://www.blikopnieuws.nl/nieuws/280249/40000-tot-80000-doden-in-nederland-...>

Vanavond werd bij Nieuwsuur bekend dat het aantal dodelijke slachtoffers door een besmetting snel kan gaan oplopen. Viroloog Marion Koopmans schat dat het **totaal aantal doden** kan oplopen tot in orde van grootte tussen de 40.000 en 80.000.

Conclusion:

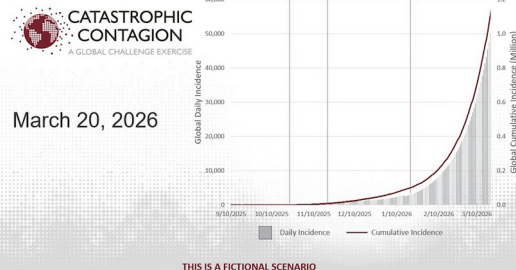

Media has a powerful role to play in the outcome of mass hysteria. It can be a double edged sword. Proper scientific explanation can have a positive affect where as statements of medical emergency, witchcraft or the supernatural can have a negative impact on the physical, psychological and social wellbeing of the affected persons.

WEF Flunky Calls For Censorship of Greatest Risk 'Mis- and Disinformation'

Tom Olohan January 12th, 2024 5:17 PM

Text to Speech

A World Economic Forum (WEF) official, finally realized that people have different perceptions of the world which can lead to challenging and polarizing views on society. Thank you, Captain Obvious.

WEF Managing Director Saadia Zahidi made a veiled call for censorship in a Jan. 11 [Time article](#), where she claimed "misinformation and disinformation" are the **greatest risk** the world will face over the next two years. In her article, Zahidi fretted that humanity had polarizing "perceptions of reality" and needed to find "alignment on the facts." She also pushed for "digital and media literacy for citizens," which is often window dressing for **censorship**."

Mis- en disinformatie = alles dat niet in de psychose past.

Inderdaad de realiteit is de grootste riskante factor/ het grootste gevaar voor het voortbestaan van de psychose.

New Zealand's former COVID tyrant Jacinda Ardern appointed to censorship role at Harvard

The Censorship-Industrial Complex has found a new champion in Jacinda Ardern, who infamously asserted that 'we will continue to be your single source of truth' on the subject of COVID-19 when she was New Zealand's prime minister in 2020.

'Misinformation and disinformation' top risk for global execs

Global decision makers rank disinformation, extreme weather, economic woes and social unrest among the biggest risks for the next two years, according to a World Economic Forum report.

“ And just as God has created an earthly Paradise, so He has created an earthly Hell. And just as God has created a heavenly Paradise, so He has created a heavenly Hell.

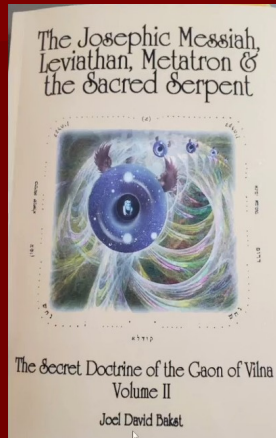

“ And, behold, my eyes were opened, and I looked down and I saw the first Palace of the empire of Satan, which bears the name of *the Pit*. Its banks are soft and slippery, and there is no projection to which a person, thrown into the pit, may attach himself. The guardian *Douma* is constantly watching the upper Palace, and as soon as a soul is rejected in Paradise he seizes it and brings it down to Hell. And I saw in *the Pit* those whose eyes had gazed upon impure and forbidden things. In the centre of this inferno I saw the impure spirit of *Gamghina*, whose body is a dull red. He is the keeper of those whose prayers have been rejected on high.

The Zohar in Moslem and Christian Spain by Ariel Bension, 1932, P. 198.

the whole, and the whole is a higher and more encompassing individual parts, i.e., a higher and more encompassing consciousness. Second, the realization that all of these events, whether secular or religious, on the side of holiness or inverted into the *klipah*, are all following specific patterns. These patterns have clear symmetries that uncannily conform to the principles of the Kabbalah. The knowledge of these symmetries is now accessible. Third, the realization that there is, in fact, a Jewish messianic conspiracy taking place and that one can choose to become a conscious participant in its development. The least one can do is to hearken to the "Call of the Turtledove" and learn to recognize the collective personality of the *Trein M'shechin* in the present generation. *Kol HaTor*, along with the proper foundations in Talmud, *halachah* and Kabbalah, can serve as a manual for attaining this perception and becoming a participant in the Torah's underground messianic movement.

Mashiah the messiah that the Jews have been waiting for ...

Every Jew works to get him to come.

When all the enemies have disappeared in wars or through miscegenation,

Samenvatting

- De zogenaamde crisissen zijn Kabbalistische crisissen;
- De klimaatcrisis bestaat niet. Er is een weermanipulatie gaande met behulp van geoengineering om extreme weer omstandigheden te creëren die als 'bewijs' moeten dienen dat het gepeupel schuld is aan deze catastrophes. (Probleem) Het ignorante gepeupel wordt hysterisch gemaakt en vraagt om oplossingen. (Reactie) Er worden maatregelen getroffen: 1) meer belasting betalen; 2) je toch al zeer gelimiteerde vrijheden worden nog verder ingedamd. (Oplossing) De geoengineering gaat gewoon door, de natuur sterft. Het circus begint weer van vooraf aan;
- De viruscrisis bestaat niet. Al meer dan 10 jaar zijn ze aan het bezuinigen op de zorg en de grijze golf is begonnen. In het voorjaar houden mensen een voorjaarsschoonmaak van hun lichaam. Die factoren samen leidden tot 'een pandemie die de zorg ontregelt'. (Probleem) Het ignorante gepeupel wordt hysterisch gemaakt en vraagt om oplossingen. (Reactie) Er worden maatregelen getroffen: 1) meer belasting betalen; 2) De inmiddels zeer gelimiteerde vrijheden worden nog verder ingedamd; 3) mensen worden vol gespoten met vergif. (Oplossing) De massale vergiftigingen door piquerisme en geoengineering gaan door en mensen worden steeds zieker. Het circus begint weer van vooraf aan.

THE SECRET COVENANT

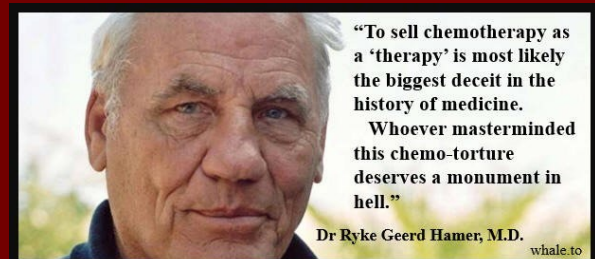

- An illusion it will be, so large, so vast it will escape their perception.
- Those who will see it will be thought of as insane.
- We will create separate fronts to prevent them from seeing the connection between us.
- We will behave as if we are not connected to keep the illusion alive. Our goal will be accomplished one drop at a time so as to never bring suspicion upon ourselves. This will also prevent them from seeing the changes as they occur.
- We will always stand above the relative field of their experience for we know the secrets of the absolute.
- We will work together always and will remain bound by blood and secrecy. Death will come to he who speaks.
- We will keep their lifespan short and their minds weak while pretending to do the opposite.
- We will use our knowledge of science and technology in subtle ways so they will never see what is happening.
- We will use soft metals, aging accelerators and sedatives in food and water, also in the air.
- They will be blanketed by poisons everywhere they turn.
- The soft metals will cause them to lose their minds. We will promise to find a cure from our many fronts, yet we will feed them more poison.
- The poisons will be absorbed through their skin and mouths, they will destroy their minds and reproductive systems.
- From all this, their children will be born dead, and we will conceal this information.
- The poisons will be hidden in everything that surrounds them, in what they drink, eat, breathe and wear.
- We must be ingenious in dispensing the poisons for they can see far.
- We will teach them that the poisons are good, with fun images and musical tones.

- Those they look up to will help. We will enlist them to push our poisons.
- They will see our products being used in film and will grow accustomed to them and will never know their true effect.
- When they give birth we will inject poisons into the blood of their children and convince them it's for their help.
- We will start early on, when their minds are young, we will target their children with what children love most, sweet things.
- When their teeth decay we will fill them with metals that will kill their mind and steal their future.
- When their ability to learn has been affected, we will create medicine that will make them sicker and cause other diseases for which we will create yet more medicine.
- We will render them docile and weak before us by our power.
- They will grow depressed, slow and obese, and when they come to us for help, we will give them more poison.

SECRET COVENANT

1

- We will focus their attention toward money and material goods so they may never connect with their inner self. We will distract them with fornication, external pleasures and games so they may never be one with the oneness of it all.
- Their minds will belong to us and they will do as we say. If they refuse we shall find ways to implement mind-altering technology into their lives.
- We will use fear as our weapon.

Tot Slot

- We will establish their governments and establish opposites within. We will own both sides.
- We will always hide our objective but carry out our plan.
- They will perform the labor for us and we shall prosper from their toil.
- Our families will never mix with theirs. Our blood must be pure always, for it is the way.
- We will make them kill each other when it suits us.
- We will keep them separated from the oneness by dogma and religion.
- We will control all aspects of their lives and tell them what to think and how.
- We will guide them kindly and gently letting them think they are guiding themselves.
- We will foment animosity between them through our factions.
- When a light shall shine among them, we shall extinguish it by ridicule, or death, whichever suits us best.
- We will make them rip each other's hearts apart and kill their own children.
- We will accomplish this by using hate as our ally, anger as our friend.
- The hate will blind them totally, and never shall they see that from their conflicts we emerge as their rulers. They will be busy killing each other.
- They will bathe in their own blood and kill their neighbors for as long as we see fit.
- We will benefit greatly from this, for they will not see us, for they cannot see us.
- We will continue to prosper from their wars and their deaths.
- We shall repeat this over and over until our ultimate goal is accomplished.
- We will continue to make them live in fear and anger through images and sounds.
- We will use all the tools we have to accomplish this.
- The tools will be provided by their labor.
- We will make them hate themselves and their neighbors.
- We will always hide the divine truth from them, that we are all one. This they must never know!
- They must never know that a man's color is an illusion; they must always think they are not equal.
- Drop by drop, drop by drop we will advance our goal.
- We will take over their land, resources and wealth to exercise total control over them.
- We will deceive them into accepting laws that will steal the little freedom they will have.
- We will establish a money system that will imprison them forever, keeping them and their children in debt.

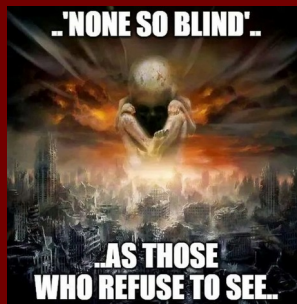

SECRET COVENANT

2

- When they shall ban together, we shall accuse them of crimes and present a different story to the world for we shall own all the media.
- We will use our media to control the flow of information and their sentiment in our favor.
- When they shall rise up against us we will crush them like insects, for they are less than that.
- They will be helpless to do anything for they will have no weapons.

Tot Slot

- We will recruit some of their own to carry out our plans, we will promise them eternal life, but eternal life they will never have for they are not of us.
- The recruits will be called "initiates" and will be indoctrinated to believe false rites of passage to higher realms. Members of these groups will think they are one with us never knowing the truth. They must never learn this truth for they will turn against us.
- For their work they will be rewarded with earthly things and great titles, but never will they become immortal and join us, never will they receive the light and travel the stars.
- They will never reach the higher realms, for the killing of their own kind will prevent passage to the realm of enlightenment. This they will never know.
- The truth will be hidden in their face, so close they will not be able to focus on it until it's too late.
- Oh yes, so grand the illusion of freedom will be, that they will never know they are our slaves.
- When all is in place, the reality we will have created for them will own them. This reality will be their prison. They will live in self-delusion.
- When our goal is accomplished a new era of domination will begin.
- Their minds will be bound by their beliefs, the beliefs we have established from time immemorial.
- But if they ever find out they are our equal, we shall perish then. THIS THEY MUST NEVER KNOW.
- If they ever find out that together they can vanquish us, they will take action.
- They must never, ever find out what we have done, for if they do, we shall have no place to run, for it will be easy to see who we are once the veil has fallen. Our actions will have revealed who we are and they will hunt us down and no person shall give us shelter.

- This is the secret covenant by which we shall live the rest of our present and future lives, for this reality will transcend many generations and life spans.
- This covenant is sealed by blood, our blood. We are the ones who from heaven to earth came.
- This covenant must NEVER, EVER be known to exist. It must NEVER, EVER be written or spoken of for if it is, the consciousness it will spawn will release the fury of the PRIME CREATOR upon us and we shall be cast to the depths from whence we came and remain there until the end time of infinity itself.

“The Prime Creator”. De top van Chabad weet heel goed dat YaH een sprookjesfiguur is en dat er een echte Schepper is: Wr’Alda.

We zullen hier verder op in gaan in de Oera Linda Boek delen van deze serie.

Ze zijn doodsbang voor Wr’Alda. Dat is de reden waarom ze alles wat ze doen en gaan doen publiceren in boeken, documenten en speeches op het internet. Alleen het ignorante gepeupel, dat gekluisterd is aan de TV, Netflix, alternatieve/ social/ staatsmedia en YouTube zal nooit weten wat er gebeurt.

“Wie zwijgt stemt toe”.

En daarmee proberen ze te voorkomen dat Wr’Alda ingrijpt.

“Ja, maar als er een Schepper zou zijn, kan hij het toch stopzetten?” Ik hoor het je vragen. Mijn vraag is “Waarom?”

Iedereen heeft alles gekregen om dit psychotische plan te stoppen. Het is heel simpel: gewoon niet meer meewerken.

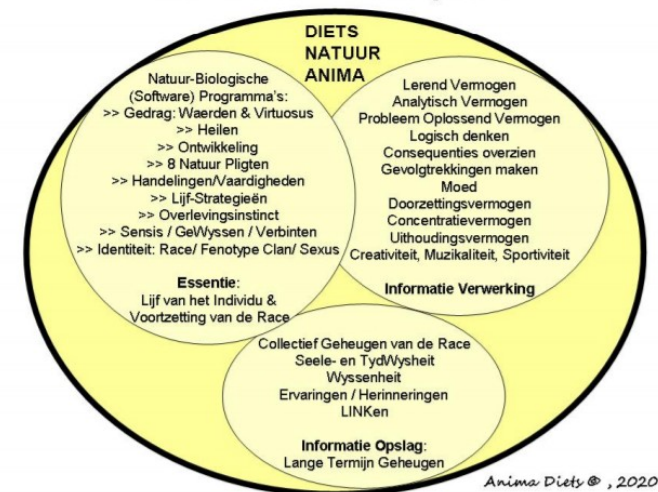

Wat heb je zelf al ondernomen? Tot nu toe heeft iedereen het probleem genegeerd. Erger nog, de mensen die het probleem aankaarten wordt de mondgesnoerd en worden uitgescholden.

Gooi je TV en Smart-foon weg en ga gebruik maken van wat je hebt ontvangen. Zolang iedereen zijn eigen vermogens blijft negeren en we niet alles hebben gedaan om zelf het probleem op te lossen zal Wr’Alda niet ingrijpen. Want als het jou niet interesseert wat er met jouw leven gebeurt, waarom zou het iemand anders moeten interesseren? Wordt volwassen en neem verantwoordelijkheid.

Zolang je de schuld bij anderen legt en de oplossing bij anderen zoekt zullen de problemen nooit opgelost worden.

Here comes the next wave of totalitarian control, and an attempt to remove our national sovereignty and all our freedoms and liberties. This was the game plan all along. Now it's no longer a conspiracy.

There has never been more critical time for humanity to unite in a wave of noncompliance, to hold onto the few freedoms we still have. If the WEF gets their way, we become instant slaves on a scale that no one can imagine.
